PRESS RELEASE

GREEN ARROW CAPITAL ANNOUNCES THE COMPLETION OF THE 135 MWP SANLÚCAR PHOTOVOLTAIC PROJECT, THE GROUP'S LARGEST SOLAR ASSET IN SPAIN

Located in Andalusia, in the province of Seville, the solar portfolio was entirely developed and built from the ground up. Comprising three plants, it is expected to generate approximately 274 GWh of electricity annually, enough to meet the energy needs of more than 100,000 households.

Milan/Madrid, 19 November 2026 – **Green Arrow Capital**, Italy's leading independent asset manager active in private markets and alternative investments and one of Europe's leading players, with €8 billion in assets under management, announces the **completion of the Sanlúcar photovoltaic** project, located in Andalusia, in the south of the Iberian Peninsula, in the municipality of Sanlúcar la Mayor, in the province of Seville, **with a total installed capacity of 135 MWp**.

Entirely developed and built from the ground up, **Sanlúcar represents the Group's largest solar asset in Spain** and a major industrial milestone in Green Arrow Capital's growth journey in the Iberian market. The project also reaffirms the Group's commitment to developing energy infrastructure that supports the transition towards renewable energy sources.

Comprising **three photovoltaic plants**, the project is located in one of Spain's areas with the highest levels of solar irradiation. Once fully operational, it is expected to generate **approximately 274 GWh of electricity annually,** enough to meet the energy needs of more than **100,000 households**, while helping to avoid approximately **144,000 tonnes of CO_2 emissions per year**.

The completion of Sanlúcar further demonstrates the Group's ability to develop and deliver large-scale infrastructure projects, leveraging its industrial and financial expertise in the renewable energy sector. This approach is geared towards long-term value creation and the development of assets capable of making a tangible contribution to Europe's energy transition.

Michele Logrippo, Infrastructure Chief Operating Officer of Green Arrow Capital Group stated*: "The completion of Sanlúcar represents a significant milestone for Green Arrow Capital and demonstrates the Group's ability to directly develop large-scale infrastructure projects, further strengthening its presence in the renewable energy sector. Spain and Southern Europe more broadly are strategic markets in our growth vision, given the opportunities arising from their energy potential and the central role these regions are expected to play. We intend to continue investing in these markets, leveraging the Group's industrial and financial expertise to develop infrastructure that contributes to energy security and independence, while creating long-term value".*

****

Green Arrow Capital (www.greenarrow-capital.com) is Italy's leading independent financial asset manager in the private markets and alternative investments sector, and one of the leading players in Europe, with €8 billion in assets under management. To date, more than 150 investors have invested in the Group's funds, (approximately 20% of whom are international), with 85% represented by institutional investors (banks, sovereign wealth funds, funds of funds, banking foundations, pension funds and insurance companies).
Green Arrow Capital was founded in 2012 by Eugenio de Blasio (majority shareholder and Executive Chairman) and Daniele Camponeschi (Group CIO). The Partners' group also includes Alessandro Di Michele (Partner, CEO GAC AF SGR and Group General Manager) and and Francesco Maria Giovannini (Partner and Deputy Chairman of the SGR), who oversees institutional relations. The Group operates across seven distinct investment strategies—*Private Equity, Energy & Digital Infrastructure, Private Credit, Opportunity Capital, NPL, Client Solutions, and Real Estate*— with 32 funds, seven client solutions products, and dedicated independent teams.
