

Nuclear New York presents

Nuclear Symposium 2026

Partnerships For Success

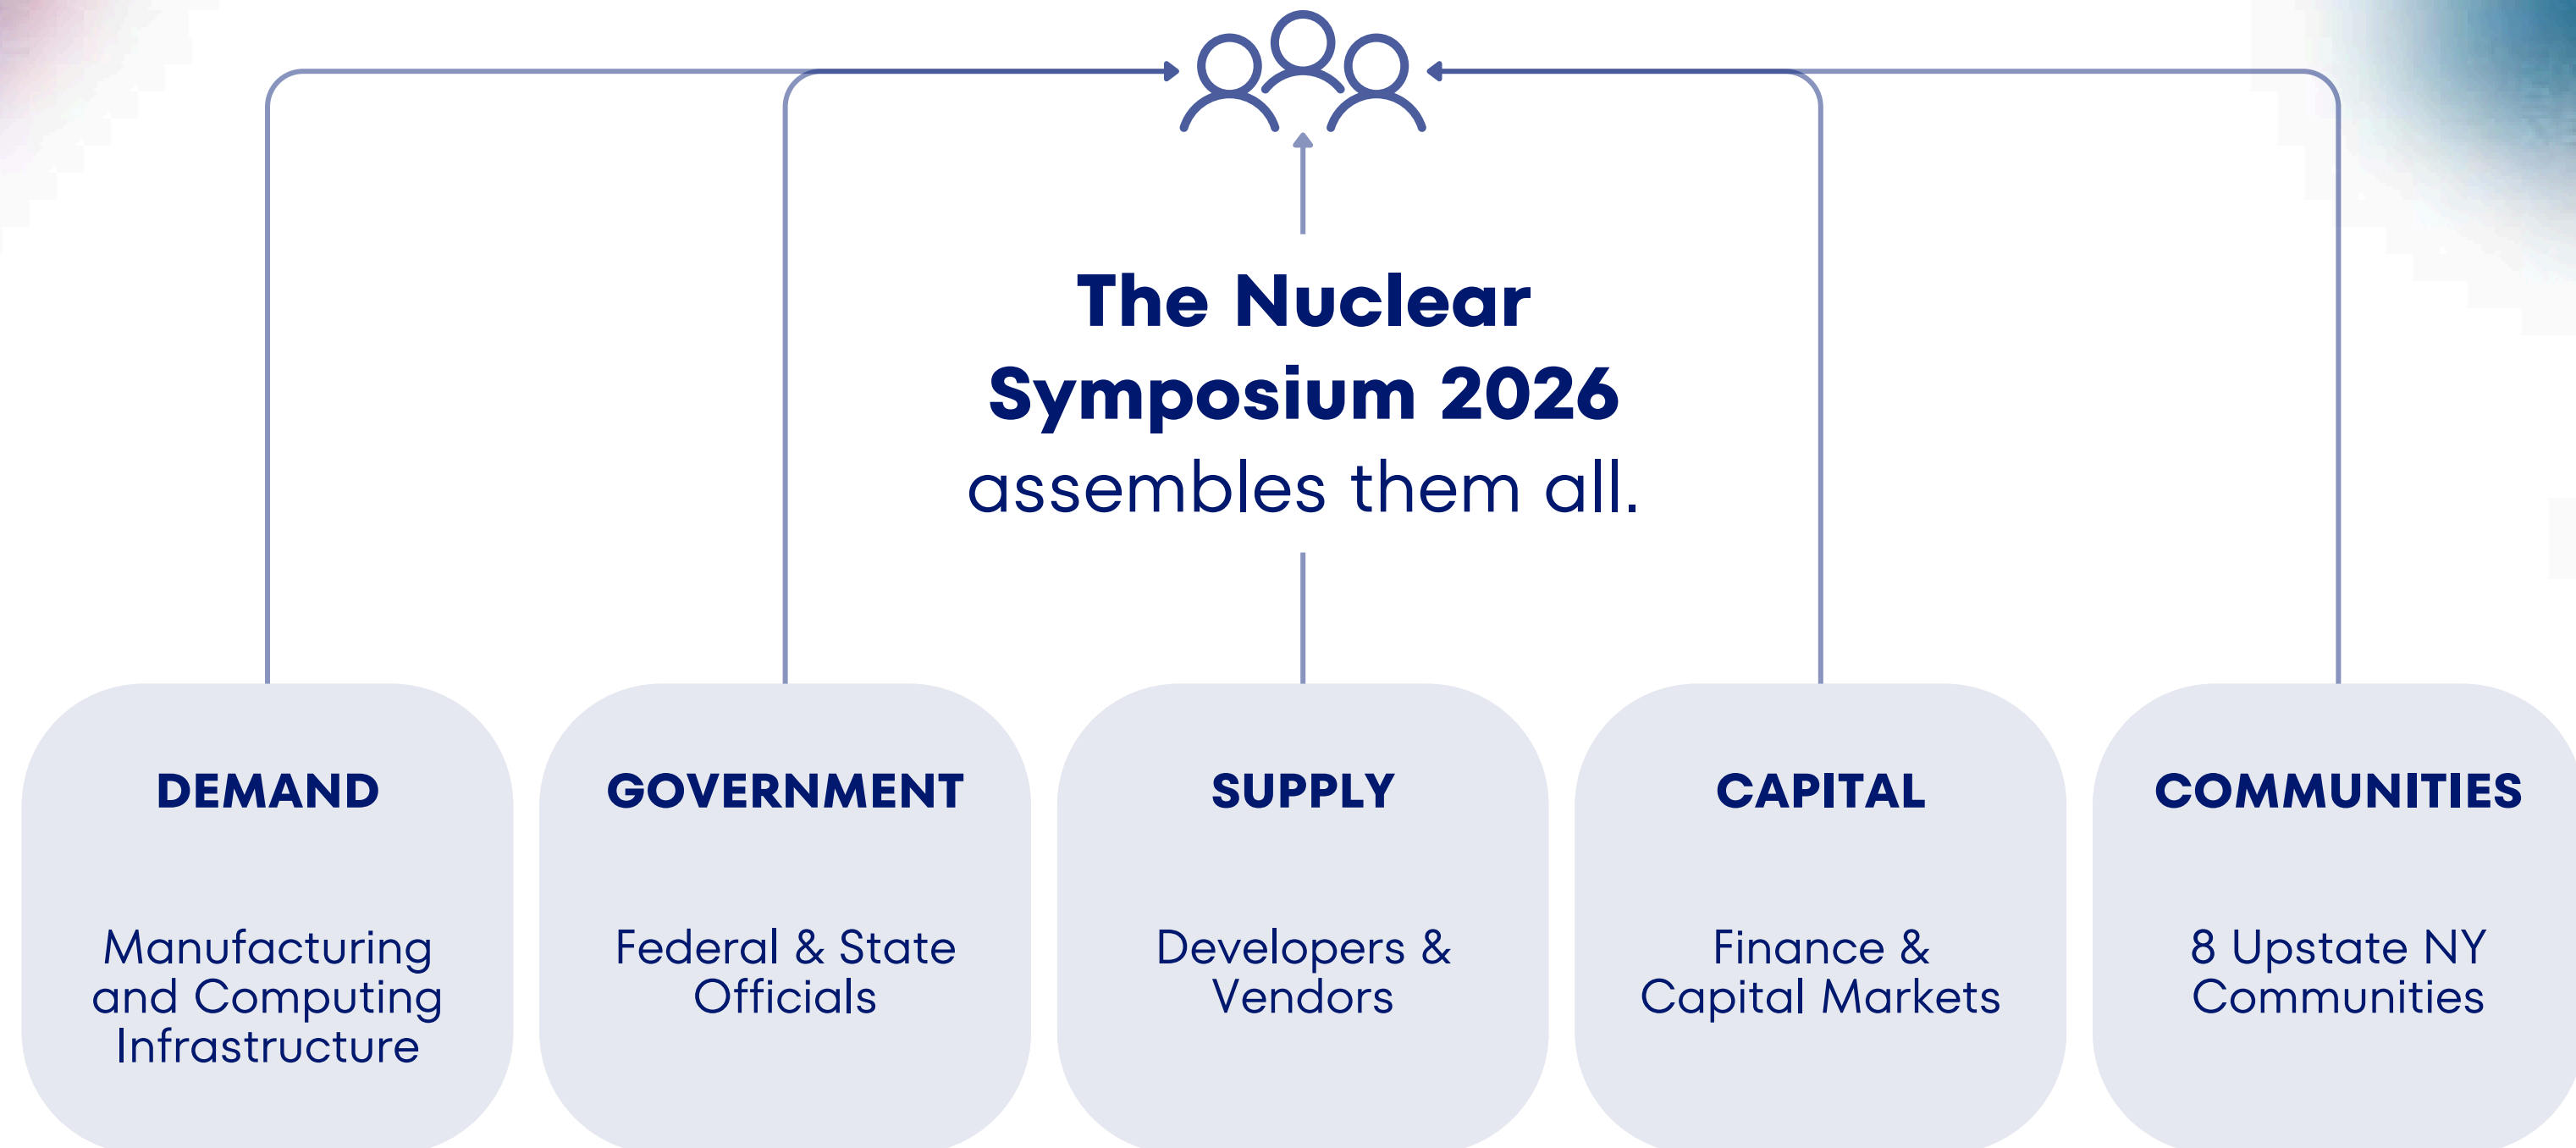

Climate Week NYC: September 23-24, 2026

Join New York's Premier Nuclear Event

Building on New York's push for a clean energy future, the 2026 Nuclear Symposium focuses on delivering clean, safe, reliable, and affordable power at scale. **Governor Hochul's commitment to 5GW** of new nuclear capacity marks a pivotal shift, positioning nuclear as essential to grid reliability and a zero-emission electricity system.

"For the first time, the communities, the developers, the buyers, the regulators, and the capital are in one room — ***because they have to be.***"

Our Team

Nuclear New York

Nuclear New York is an independent, non-partisan nonprofit working towards a prosperous decarbonized future and nature conservation. We conduct rigorous research, education, policy advocacy, and non-intrusive activism. We pioneered nuclear event organization at ClimateWeekNYC online (2021) and in-person (since 2023).

Generation Atomic

Generation Atomic is a nonprofit inspiring and empowering advocates for a clean future powered by atomic energy. We work to change the culture and build a movement to support nuclear energy. We have prevented nuclear plant closures in California and Illinois and secured nuclear's inclusion in the EU's sustainable finance taxonomy.

Cornell Atkinson Center For Sustainability

Cornell Atkinson Center for Sustainability is Cornell's hub for cross-campus sustainability research, funding interdisciplinary projects and fostering partnerships across academia and beyond. We are keen to advance constructive conversations around energy and climate.

Cornell NiCE (Nuclear is Clean Energy)

Cornell NiCE (Nuclear is Clean Energy) is a student organization dedicated to educating the Cornell community and the public about nuclear energy and its role in a clean energy future. We strive to provide accessible, fact-based information on nuclear reactors, waste management, emerging technologies, and energy policy while creating opportunities for students to engage with experts in the field.

Symposium Agenda

Wednesday Sept 23, 2026

**Venue: NY City Bar Association, 42
West 44th St**

Conference (3 PM-7 PM)

New York and Northeastern Region focused conversations

VIP Welcome Dinner (7 PM-9 PM)

Exclusively for sponsors, speakers and invited guests, heavy
hors d'oeuvres served

Thursday Sept 24, 2026

Venue: Verizon Executive Education Center

Conference (9:30 AM-5 PM)

National and Global discussions on what is needed for nuclear energy
deployment.

Networking Happy Hour (5 PM-7 PM)

All Participants are invited to a networking reception
