SUMMARY

Product design leader with 6+ years shipping end to end product experiences for regulated financial platforms at JPMorganChase and Vcheck. Built and led a 6 person design team, owning hiring, roadmap, and design review, while shipping work tied to \$3M+ in revenue and an agentic AI system that cut feature shipping from 4 days to under 8 hours while enforcing design and compliance standards automatically. Now looking to lead a product design team full time.

CORE SKILLS

Leadership & Team: Team Leadership & Hiring, Design Roadmap Ownership, Performance Feedback & Coaching, Design Critique Facilitation, Cross-functional & Executive Stakeholder Management

Product & Technical: End-to-End Product Design, Human-AI Interaction, AI Enablement, AI-Assisted Prototyping, Interaction Design, Data Visualization, Design Systems, A/B Testing, WCAG Accessibility

Domain: FinTech, Enterprise Software, Compliance UX, SaaS, Financial Services, Regulated Environments, AI Product Design

EXPERIENCE

JPMorganChase | Mumbai, India | Dec 2025 - Present

Senior Product Designer

- Designed a 0-to-1 portal indexing **140+** AI solutions across the organization, cutting discovery time from **2 days to 20 minutes** and preventing redundant work on **28%** of new requests
- Defined how professionals interact with AI generated insights in regulated financial workflows, preserving compliance oversight and the ability to verify every recommendation
- Built an agentic AI system that works inside the design and engineering workflow, checking active work against Global Banking design standards in real time, cutting feature shipping from **4 days to under 8 hours** and reducing guideline violations by **84%**
- Raised the AI baseline across the design org through workshops, playbooks, and communities of practice, then converted design knowledge into structured, AI readable systems, part of an effort that enabled **50+ designers** and lifted AI practice adoption to **roughly 70%** org wide

Vcheck | Pune, India | Dec 2024 - Dec 2025

Senior Product Designer

- Built and led a **6 person** design team: assigned work, ran design reviews, gave feedback, owned the design roadmap across two OKR cycles, and hired designers for the team
- Rebuilt static PDF compliance reports as interactive, insight-first digital experiences, cutting client review time by **95%** and follow-up emails by **38%**
- Designed an internal tool replacing Excel-based deal execution workflows, eliminating **80%** of manual processing time
- Architected a design system from scratch, **60+ components and 200+ variants**, cutting design time for new features by **40%** and doubling engineering delivery speed

JPMorganChase | New York City, USA | Oct 2022 - Dec 2024

Senior Product Designer

- Redesigned fee structuring workflows, cutting proposal time from **over an hour to under 3 minutes**; generated **\$3M+** in revenue and drove **95%** adoption across all North American proposals
- Redesigned a core internal banking platform, replacing fragmented manual processes with a single structured workflow and saving **20+ hours per week** per analyst team

Insomniac Design | Washington DC, USA (Remote) | Feb 2022 - Oct 2022

Senior UX/UI Designer

- Designed a multilingual onboarding framework with localization aware interaction patterns for a global news platform serving **15+ language markets**, reducing onboarding drop-off by **25%**
- Developed an inclusive UX strategy and led **30+ family research sessions** for an educational product targeting children's cognitive development, improving accessibility scores by **40%**

Pratt Institute | New York City, USA | Nov 2020 - Dec 2021

User Experience Designer

- Redesigned the Pratt News website from the ground up, covering information architecture, visual hierarchy, and content strategy; reduced bounce rate from **82% to 24%** and brought **49,700** new users in year one

EDUCATION

Pratt Institute | New York City, USA | Dec 2021

Master of Science, Information Experience Design

Focused on data visualization, interaction design, information architecture, usability research, and product strategy. Key projects: In Search of Space (data visualization of 4,324 space missions, 1957-2020), NYC.gov accessibility redesign, Monterey Bay Aquarium visitor experience.

MIT Institute of Design | Pune, India | May 2019

Bachelor of Design, Graphic Design

Foundation in visual communication, typography, motion graphics, UI design, branding, and illustration.
