EXPERIENCE

JPMorganChase

Senior Product Designer

Dec 2025 – Present

Mumbai, India

- **140+ AI solutions indexed in a 0-to-1 portal:** cut discovery time from 2 days to 20 minutes and surfaced an existing build for 28% of new requests, preventing redundant work across the org.
- **Human-AI interaction patterns for regulated workflows:** defined how professionals engage with AI-generated insights while keeping compliance oversight and the ability to verify every recommendation.
- **Design system adopted across 4+ product teams:** shared components, tokens, and documentation with governance and contribution standards that hold the experience consistent as it scales.

Vcheck

Senior Product Designer

Dec 2024 – Dec 2025

Pune, India

- **50%+ drop in client review time:** rebuilt static PDF compliance reports as interactive, insight-first digital experiences. Follow-up emails fell 38%.
- **80% of manual processing time eliminated:** designed an internal tool replacing Excel-based deal execution workflows with a structured, rules-driven interface.
- **100% engineering team adoption:** built a design system from scratch — 60+ components, 200+ variants — with governance, documentation, and contribution guidelines.
- **Led end-to-end design across the compliance platform:** research through handoff, with design direction provided to a team of 6 across two OKR cycles.

JPMorganChase

Senior Product Designer

Oct 2022 – Dec 2024

New York City, USA

- **\$3M+ in revenue attributed to fee workflow redesign:** surfaced high-value structures previously buried in spreadsheets, driving 95% adoption across all North American proposals.
- **20+ hours/week saved per analyst team:** full redesign of a core internal banking platform, replacing fragmented manual processes with a single structured workflow.

Insomniac Design

Senior UX/UI Designer

Feb 2022 – Oct 2022

Washington DC, USA (remote)

- **25% reduction in onboarding drop-off:** designed a multilingual onboarding framework with localization-aware interaction patterns for a global news platform serving 15+ language markets.
- **40% improvement in accessibility scores:** developed UX strategy and inclusive interaction framework; led 30+ family research sessions for an educational product targeting children's cognitive development.

Pratt Institute

User Experience Designer

Nov 2020 – Dec 2021

New York City, USA

- **70% bounce rate reduction, 49,700 new users in year one:** redesigned the Pratt News website from the ground up — information architecture, visual hierarchy, and content strategy. Average session duration reached 2 minutes 19 seconds post-launch.

EDUCATION

Pratt Institute

Master of Science, Information Experience Design

Dec 2021

New York City, USA

- Focused on data visualization, interaction design, information architecture, usability research, and product strategy.
- Key projects: In Search of Space (data visualization of 4,324 space missions, 1957–2020), NYC.gov accessibility redesign, Monterey Bay Aquarium visitor experience.

MIT Institute of Design

Bachelor of Design, Graphic Design

May 2019

Pune, India

- Foundation in visual communication, typography, motion graphics, UI design, branding, and illustration.

SKILLS

- **Design Tools:** Figma, Adobe Creative Suite, Framer, Miro, VSCode, Git/Bitbucket, Webflow
