

Architectural Lighting Systems, Manufacturing & Custom Solutions

ABOUT

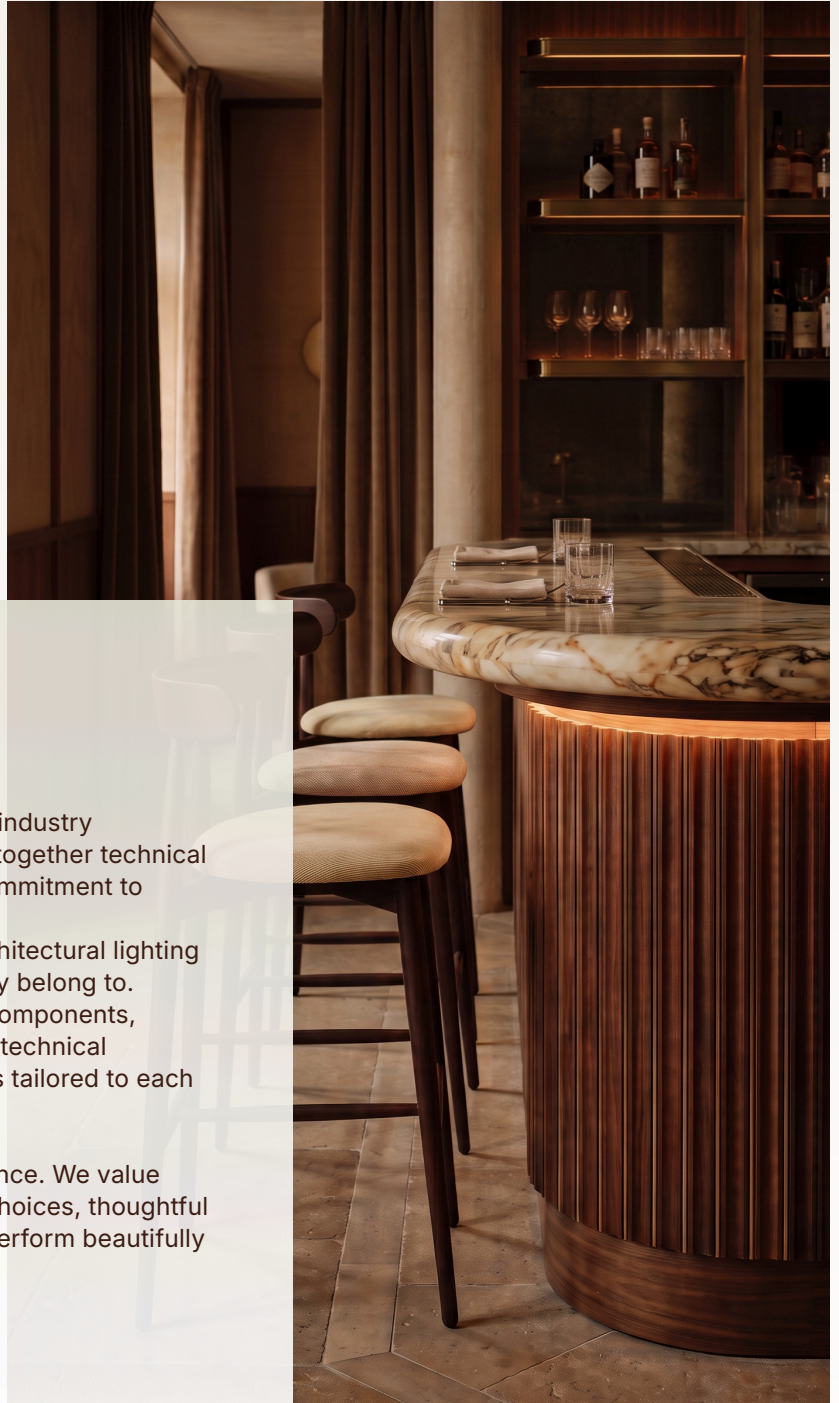

TERRAWAVE LIGHTING

Crafted Light for Visionary Spaces

Founded on more than two decades of industry experience, TerraWave Lighting brings together technical expertise, architectural vision, and a commitment to precision.

Based in Miami, we develop refined architectural lighting systems shaped around the spaces they belong to. Our work combines carefully sourced components, in-house assembly, customization, and technical coordination to deliver lighting solutions tailored to each project's requirements.

Our approach extends beyond appearance. We value enduring quality, responsible material choices, thoughtful energy use, and systems designed to perform beautifully over time.

OUR SERVICES

BESPOKE LIGHTING DEVELOPMENT

Beyond standard solutions. Distinctive profiles, sculptural geometries, custom finishes, and lighting configurations developed around each architectural vision.

PRODUCT SOURCING & PROJECT SUPPLY

Selection and supply of architectural luminaires, LED systems, drivers, and accessories, tailored to each project's requirements.

CUSTOM MANUFACTURING & ASSEMBLY

Architectural lighting manufactured in-house, combining precision engineering, meticulous craftsmanship, and exceptional build quality.

LIGHTING DESIGN & TECHNICAL SUPPORT

Lighting calculations, 3D visualizations, product specifications, and technical guidance to support design development and seamless integration.

PRODUCT RANGE & CAPABILITIES

ARCHITECTURAL LINEAR LIGHTING SYSTEMS

Configurable luminaires in a variety of shapes, lengths, and finishes, designed for seamless architectural integration.
