

Westpac Geographical Interlocking – Mk 111A - Maintenance

Aim

This course is intended for staff to gain a detailed knowledge of this type of circuitry with respect to maintenance & faulting.

Key Features

- Underpinning knowledge of the system.
- Detailed understanding of the processes.
- Practical fault finding exercises.

Course Outcomes

On successful completion of this course, the delegate will be able to perform maintenance and fault finding of the system in the following areas:

- System Construction and Wiring
- Levels of route
 - Selection
 - Calling
 - Locking
 - Aspects
 - Releasing
- Panel Indications
- Bi-directional Working
- Overlaps
- Restricted Aspects
- Preceding Shunt Signals
- Flank Protection
- Fault Finding

Assessment and Certification

Achievement of the Course Outcomes will be assessed by a practical and theory assessment to demonstrate the underpinning knowledge gained.

The delegate's achievement of the Course Outcomes will be confirmed by a certificate which will be forwarded to the nominated client contact following the course.

Pre-Requisites

It would be helpful if delegate have a good knowledge of general signalling principles and circuitry, and to be an existing maintainer.

Practical Information

Duration: 10 Days

Location: at our Derby training centre, or on your premises where a training interlocking is available.

Maximum number of delegates: 8

This course is produced and run by Signet Solutions.

telephone: +44(0)1332 343585

Course Progressions

We offer many signalling technical courses, and it can be difficult to work out what's best for your needs. The following table will assist you.

*Development Courses in green text

These courses typically form the backbone of a career development path, and are usually taken in the order shown.
Available on an "open" basis, in which you can take individual places from our regular timetable.

*Supplementary Courses in blue text

These courses provide supplementary knowledge about a specific technology or process. They can generally be taken on an "as needed" basis, without any particular order.
Available on a "private" basis, in which you sponsor the delivery of a full course. This works better for four or more delegates.

This is just a quick guide – please consult our individual course specifications for more detailed information. Please ask us if you have any queries.
