sales@tuffride.com.au
www.tuffride.com.au
14 Humeside Dr Campbellfield VIC 3061

Congratulations on the purchase of your new Tuffride Suspension.

TUFFRIDE PTY LTD provides the express warranties set out in this booklet to the original purchaser of the suspension, subject to the terms and conditions of these express warranties.

These express warranties are provided in addition to, and do not limit, exclude or replace, any rights or remedies available under the Australian Consumer Law or other applicable legislation.

For the Purchaser:

TUFFRIDE PTY LTD warrants that, from the date of delivery, the structural components of the suspension will be free from defects in materials and workmanship for a period of 5 years or 100,000 km, whichever occurs first, when operated, serviced and maintained in accordance with the applicable TUFFRIDE PTY LTD recommendations.

Serviceable Life of the Caravan:

- Suspension Hanger bushes

5-year warranty:

- All Structural components

4-Year warranty:

- Shock absorbers

12 Month warranty:

- Brake Components

The 5-year warranty applies to the steel and structural components of the suspension, including, but not limited to:

- Structural steel components
- Hangers and cleats
- Welding integrity

Shock absorbers are covered by a separate warranty period of 4 years from the date of delivery.

Brake components and associated braking equipment are covered by a warranty period of 12 months from the date of delivery, unless a longer warranty period is provided by the relevant component manufacturer or supplier.

sales@tuffride.com.au
www.tuffride.com.au
14 Humeside Dr Campbellfield VIC 3061

Suspension Bush Warranty

- Suspension hanger bushes are warranted for the serviceable life of the caravan on which the suspension was originally installed, provided the caravan remains in normal use, has not been written off, and the suspension is maintained in accordance with Tuffride's maintenance requirements.
- For this warranty, "serviceable life of the caravan" means the period during which the caravan remains in normal use and serviceable condition. This warranty does not cover bush wear, deterioration or failure resulting from overloading, impact damage, misuse, lack of maintenance, unauthorised modifications, accident damage, or use outside the suspension's intended design classification and operating conditions.
- TUFFRIDE PTY LTD reserves the right to inspect and assess any bush warranty claim to determine whether the condition has resulted from a manufacturing defect or normal wear, environmental conditions, maintenance practices or other non-warrantable causes.

TUFFRIDE PTY LTD also incorporates components and equipment manufactured by third-party suppliers. These components may be covered by the relevant manufacturer's or supplier's warranty and are subject to the applicable terms and conditions of that warranty. Where applicable, TUFFRIDE PTY LTD will assist customers with warranty claims relating to third-party components.

For the avoidance of doubt, where a Purchaser acquires the suspension from another Purchaser (purchased as a component of a new caravan or RV from a qualified dealer of the new caravan or RV manufacturer), the period referred to above will be calculated as the period from the date the Second Purchaser acquires the suspension from the First Purchaser until the end of the warranty period that would have otherwise applied to the First Purchaser if the First Purchaser had not sold the suspension to the Second Purchaser.

The benefits provided to the Purchaser under the express warranties above are in addition to any other rights and remedies of the Purchaser under any applicable laws.

1800 883 374

Australian Consumer Law

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law.

You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage.

You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Nothing in this warranty booklet excludes, restricts or modifies any rights or remedies that cannot lawfully be excluded, restricted or modified under the Australian Consumer Law or other applicable legislation.

The express warranties in this booklet are additional to, and do not replace, the consumer guarantees provided by law. Where an express warranty provision is inconsistent with a non-excludable legal right or remedy, the legal right or remedy will apply to the extent required by law.

The warranty covers defects in materials and workmanship arising from the manufacture or assembly of the suspension.

1. WARRANTY EXCLUSIONS

The Purchaser may be required to provide reasonable evidence of purchase, ownership, date of purchase and/or identification of the suspension to assist TUFFRIDE PTY LTD in assessing an express warranty claim. Failure to provide such information will not exclude or limit any rights or remedies available under the Australian Consumer Law:

a) If the Purchaser cannot provide proof of purchase or equivalent documentation which confirms that the relevant suspension was purchased from TUFFRIDE PTY LTD or a qualified dealer;
b) To defects which have arisen because of the suspension being involved in an accident, other impact, being towed at excessive speed, or being towed by a vehicle that is not suitable for the suspension;
c) To defects which have arisen by use of the suspension which is contrary to any law, ordinance, or regulation in force in any state or territory of Australia and New Zealand;
d) Damage caused or contributed to by operating the caravan outside the suspension's intended design classification, or by failing to adjust speed, loading, driving technique, or tyre pressures to suit the road surface and operating conditions. Suspension components are subject to increased loads on corrugated, uneven, rough, or unsealed roads, and users must operate the caravan in a manner appropriate to those conditions;
e) Claims relating to third-party components may also be covered by the relevant component manufacturer's warranty. Nothing in this clause limits any rights or remedies available against Tuffride under the Australian Consumer Law;

1800 883 374
sales@tuffride.com.au
www.tuffride.com.au
14 Humeside Dr Campbellfield VIC 3061

f) To minor imperfections which are within reasonably acceptable industry tolerances and variances;
g) To a consumable part of the suspension which requires routine replacement by the Purchaser;
h) The express warranties do not cover defects, damage or failures to the extent that they are caused or contributed to by:
    i. overloading or operation outside the applicable load ratings or compliance requirements;
    ii. misuse, abuse, negligence or improper operation;
    iii. accident, collision, impact or road hazard;
    iv. unauthorised modification, alteration, repair or adjustment where that work caused or contributed to the claimed defect or failure;
    v. failure to carry out required inspection, servicing or maintenance where that failure caused or contributed to the claimed defect or failure;
    vi. operation outside the suspension's intended application, design classification or specified operating conditions; or
    vii. any other external cause unrelated to a defect in materials or workmanship.
i) Any rectification, modification or other work required solely because of a change to, or introduction of, applicable State, Territory or Commonwealth legislation after the date of purchase, where the work is not required to remedy a defect in the suspension or a failure by TUFFRIDE PTY LTD to comply with an applicable legal requirement at the time of supply;
j) Damage or additional damage caused or contributed to by continued use of the suspension after a defect has become apparent, or reasonably should have become apparent, is not covered by the express warranty to the extent that the continued use caused or contributed to that damage;
k) Nothing in these warranty terms excludes liability for loss or damage where such exclusion is prohibited by the Australian Consumer Law or other applicable legislation. Subject to those laws, TUFFRIDE PTY LTD is not responsible for loss or expense that is not reasonably foreseeable or that does not result from a failure by TUFFRIDE PTY LTD to comply with an applicable legal obligation;
l) To deterioration or damage of the suspension due to exposure to natural elements and weather:
    i. External causes, such as fire, heat, water, flooding, dampness, liquid ingress;
    ii. Foreign material entering the product, dirt, corrosive conditions (including salt and sand);
    iii. Theft, vandalism, earthquakes, tornadoes, acid rain;
    iv. Acts of God, terrorism, environmental conditions;
    v. Any act or circumstance beyond our control.
m) To defects which may be rectified through normal service and maintenance, which is the responsibility of the Purchaser;
n) Failure to maintain service and maintenance obligations on the suspension during the warranty period, instructions are set out below in the service section 6 and 7 of the warranty booklet;
o) To damage attributable to normal wear and tear, such as scratching, stone damage or reasonable degradation of general aesthetics in paint, galvanising or other coatings;
p) To any defect, or the effect of defects, that may have been mitigated had the Purchaser notified TUFFRIDE PTY LTD or a qualified dealer, or undertaken servicing

1800 883 374
sales@tuffride.com.au
www.tuffride.com.au
14 Humeside Dr Campbellfield VIC 3061

in accordance with the service booklet attached, or maintenance at an earlier date but nonetheless failed to do so;

q) The express warranty does not apply to commercial rental, hire or other commercial use where TUFFRIDE PTY LTD has expressly stated that the express warranty is limited to private or non-commercial use. This limitation does not exclude, restrict or modify any rights or remedies that cannot lawfully be excluded under the Australian Consumer Law;
r) To cover call-out fees, service charges, towing charges, and attendance expenses levied by any towing operators, electricians, plumbers, or other such mobile repair service providers;
s) Damage caused or contributed to by the use of a high-pressure washer, including damage to protective coatings, seals, electrical components or other components caused by inappropriate pressure, distance or application, is not covered by the express warranty;
t) To defects arising from any repair, modification, alteration or other work to the suspension that was not approved by TUFFRIDE PTY LTD in writing;
u) To defects or damages arising from any usage or towage of the suspension other than in accordance with the suspension's compliance plate;
v) To defects or damage to goods, products, items, consumables and any other component which forms part of the suspension that is supplied by a third-party, except where such defect or damage is caused by TUFFRIDE PTY LTD during the manufacturing process;
w) The cost related to freight/transport to and from TUFFRIDE PTY LTD or the qualified dealer/repairer, insurance, accommodation, towing or recovery costs (including all costs of TUFFRIDE PTY LTD staff attending the location) occurring as a result from warranty claims are the Purchaser's responsibility unless TUFFRIDE PTY LTD agrees otherwise in writing.
Nothing in this clause limits any entitlement a consumer may have under the Australian Consumer Law to reimbursement of reasonably incurred costs;
x) Unless otherwise expressly stated in writing by TUFFRIDE PTY LTD, the express warranties in this booklet apply to products originally supplied by TUFFRIDE PTY LTD or a qualified Tuffride dealer. This does not limit any rights or remedies that may apply under the Australian Consumer Law;
y) The express warranty may not apply where the product identification or serial number has been deliberately removed, altered, defaced or rendered illegible, and TUFFRIDE PTY LTD cannot reasonably verify the identity, specification or warranty status of the product. This does not limit any rights or remedies that cannot lawfully be excluded under the Australian Consumer Law; and
z) TUFFRIDE PTY LTD makes no express warranties or representations other than those set out in this warranty booklet.

CORROSION, RUST AND SURFACE COATINGS

Rust, corrosion, paint deterioration and surface coating damage can occur because of environmental exposure, normal use and ongoing wear and tear. The Purchaser is responsible for the ongoing inspection, cleaning and maintenance of all painted, coated, galvanised and exposed metal surfaces.

1800 883 374
sales@tuffride.com.au
www.tuffride.com.au
14 Humeside Dr Campbellfield VIC 3061

The warranty covers defects in materials, workmanship or the application of protective coatings that existed at the time of manufacture. A claim may be considered where rust, corrosion or coating failure is determined by Tuffride to have resulted directly from a manufacturing defect or coating application defect.

TUFFRIDE PTY LTD will assess, acting reasonably, whether corrosion or coating failure resulted from a manufacturing or coating defect, normal environmental exposure, inadequate maintenance, damage or another external cause.

The warranty does not cover:

a) Surface rust, oxidation or corrosion resulting from normal environmental exposure;
b) Damage caused by salt, coastal environments, sand, chemicals, fertilisers, animal waste, road contaminants or other corrosive substances;
c) Stone chips, scratches, abrasions, impact marks or coating damage caused by road debris or external influences;
d) Paint fading, discolouration or cosmetic deterioration that does not affect the structural integrity or intended function of the chassis or suspension;
e) Rust or corrosion that develops because of damaged paint, protective coatings or galvanised surfaces not being repaired or maintained;
f) Damage resulting from inadequate cleaning, maintenance or storage conditions; or
g) Corrosion occurring in areas that have been modified, repaired or altered after manufacture without written approval from Tuffride.

Where paint, protective coatings or galvanised surfaces become chipped, scratched or otherwise damaged, the Purchaser is responsible for promptly cleaning, treating and repairing the affected area to prevent further deterioration.

Where the Purchaser fails to reasonably address such damage and that failure causes or contributes to subsequent rust, corrosion or other deterioration, TUFFRIDE PTY LTD will not be responsible for the resulting damage to the extent that it was caused or contributed to by that failure.

The presence of minor surface rust, cosmetic imperfections or normal weathering alone does not constitute a warranty defect where the product remains structurally sound, safe and fit for its intended purpose.

Where a modification, alteration or repair is undertaken without TUFFRIDE PTY LTD's written approval and that work causes or contributes to a defect, damage or failure, the resulting defect, damage or failure will not be covered by the express warranty.

Where the Purchaser has installed an accessory, modification or additional component that was not supplied or approved by TUFFRIDE PTY LTD, and that item must be removed to allow inspection, testing or repair of a warranty-related component, TUFFRIDE PTY LTD may require the Purchaser to arrange and pay for the removal and reinstallation of that item, except where those costs are required to be borne by TUFFRIDE PTY LTD under applicable law.

1800 883 374
sales@tuffride.com.au
www.tuffride.com.au
14 Humeside Dr Campbellfield VIC 3061

2. TRANSFER OF OWNERSHIP

For the warranty of the suspension to be transferable, the Purchaser must ensure the service schedule is brought up to date in accordance with TUFFRIDE PTY LTD recommended service schedule. For transfer of the express warranty, Tuffride may require evidence that servicing was carried out by a suitably qualified service provider in accordance with Tuffride's specifications.

a) A copy of the up-to-date service or repair invoice emailed to the TUFFRIDE PTY LTD office;
b) A copy of the sales invoice to the new owner to be emailed to the TUFFRIDE PTY LTD office;
c) A copy of the current RV registration to be emailed to the TUFFRIDE PTY LTD office;
d) Supply a record of the suspension and VIN number to the TUFFRIDE PTY LTD office.

Email: warranties@tuffride.com.au or contact the office 1800 883 374

WHERE WARRANTIES OR REPAIRS CAN BE ASSESSED

a) The authorised TUFFRIDE PTY LTD dealer from where the suspension was originally purchased;
b) Any other qualified TUFFRIDE PTY LTD dealer within Australia; or
c) Any qualified repair centre within Australia provided written approval to carry out the inspection and/or repairs at that repair centre is first received from TUFFRIDE PTY LTD in writing.

3. HOW TO MAKE A CLAIM

A Purchaser's first point of contact for any potential warranty claim should be the qualified dealer from whom the suspension was purchased.

For assistance in contacting the relevant dealer, see our website or call us 1800 883 374

To make a claim under a warranty provided in these Warranty Terms a Purchaser must:

a) Lodge the claim with the qualified dealer who supplied the suspension to the Purchaser (subject to the terms below) as soon as possible. A Purchaser should notify TUFFRIDE PTY LTD or a qualified dealer as soon as reasonably practicable after becoming aware of a suspected defect. Early notification assists TUFFRIDE PTY LTD in assessing the cause of the issue and may help prevent further damage. A delay in notifying TUFFRIDE PTY LTD will not, by itself, exclude or limit a claim where the Purchaser otherwise has a valid right under these express warranty terms or the Australian Consumer Law.
Where a defect is not notified promptly and the delay causes or contributes to additional damage, TUFFRIDE PTY LTD may assess the warranty claim having regard to the extent to which the additional damage was caused or contributed to by the delay.

1800 883 374
sales@tuffride.com.au
www.tuffride.com.au
14 Humeside Dr Campbellfield VIC 3061

b) Tuffride may request reasonable evidence of purchase and available service records to assist in assessing the claim;
c) Provide details relating to the proposed warranty claim (including any quotations obtained from a qualified dealer or repairer as to proposed remedial works for review and assessment by TUFFRIDE PTY LTD);
d) Provide clear photographs of the problem as detailed in the warranty claim;
e) Where continued use could reasonably result in further damage or create a safety risk, the Purchaser should cease using the suspension and contact TUFFRIDE PTY LTD or a qualified dealer as soon as practicable; and
f) The processing of warranty claims can be expedited by ensuring that the qualified dealer or repairer has lodged your details with TUFFRIDE PTY LTD.

If the authorised dealer who supplied the suspension has informed the Purchaser that the supplying authorised dealer is unable to assist with a warranty claim, or is otherwise no longer an authorised dealer of TUFFRIDE PTY LTD then the Purchaser must submit the claim to either:

a) Another qualified dealership within Australia (as authorised by TUFFRIDE PTY LTD);
b) A qualified repair centre that has received written approval from TUFFRIDE PTY LTD to perform assessment or repairs; or
c) TUFFRIDE PTY LTD

If the Purchaser submits a warranty claim to another qualified dealer or a local service agent, the claim must be made as soon as possible after first becoming aware of the defect and include the information and materials listed in warranty terms as (b).

If the Purchaser does not provide such requisite information and materials, then TUFFRIDE PTY LTD reserves the right to refer the Purchaser to a qualified dealer or local repair agent (as the case may be) and/or not proceed with actioning the warranty claim until the requisite information and materials are provided by the Purchaser.

Following receipt and evaluation of the Purchaser's warranty claim, the qualified dealer or TUFFRIDE PTY LTD (as the case may be) will provide directions to the Purchaser as to whether the suspension is required to be transported to TUFFRIDE PTY LTD or a qualified repairer for inspection, further assessment and if deemed necessary by TUFFRIDE PTY LTD, repair.

4. WARRANTY REMEDY

Where a claim is accepted under the express warranty, TUFFRIDE PTY LTD may, subject to the nature of the defect and the applicable warranty terms, repair or replace the defective component or otherwise rectify the defect.

Where the Australian Consumer Law gives the Purchaser a right to choose or receive a particular remedy, that right will apply and is not limited by this section.

Any repair or replacement provided solely under the express warranty will be covered for the balance of the applicable original express warranty period, unless otherwise required by law.

5. COST OF WARRANTY CLAIM

TUFFRIDE PTY LTD may require the suspension to be made available for inspection and assessment before approving work under the express warranty. No repair, replacement, modification or other remedial work should be undertaken at TUFFRIDE PTY LTD's expense without prior approval, except where otherwise required by law.

Where a claim is accepted under the express warranty, TUFFRIDE PTY LTD will provide the applicable remedy in accordance with these warranty terms. Nothing in this section limits any right to reimbursement, compensation or other remedy that cannot lawfully be excluded under the Australian Consumer Law.

Unless otherwise required by law or agreed by TUFFRIDE PTY LTD in writing, costs associated with unrelated repairs, modifications, accessories, recovery, accommodation, travel or other expenses not reasonably attributable to the warranted defect are the responsibility of the Purchaser.

TUFFRIDE PTY LTD highly recommends the Purchaser of this suspension, caravan, RV or trailer obtain roadside assist cover.

6. SERVICING

It is the responsibility and obligation of the Purchaser to regularly service the suspension in accordance with the service requirements detailed in the service checklist attached and at the time prescribed by the service schedule, to ensure that the suspension is maintained in a safe and roadworthy condition.

This routine servicing of the suspension is at the Purchaser’s expense and those items identified as requiring performance by a service technician in the checklist must be provided by a qualified service centre.

The Purchaser must adhere to suspension, caravan/RV or trailer manufacturer published maintenance/service schedule after the purchase date (highlighted in the service schedule attached), ensuring the schedule covers all the points listed in the service schedule section.

Details of the service agent performing the maintenance/service must also be recorded.

It is the Purchaser’s responsibility to service and keep adequate records of such servicing. The failure to adhere to the service checklist, and time periods specified mandatory for suspension servicing, may affect warranty coverage where the lack of service contributed to the defect being claimed.

1800 883 374
sales@tuffride.com.au
www.tuffride.com.au
14 Humeside Dr Campbellfield VIC 3061

7. MAINTENANCE

The suspension is manufactured using individual components supplied by TUFFRIDE PTY LTD and various third-party suppliers. It is the responsibility and obligation of the Purchaser to maintain the suspension, including its individual components, in a safe and roadworthy condition.

Where TUFFRIDE PTY LTD provides an express warranty for a particular third-party component, that component is covered for the period and on the terms stated in this booklet.

Where TUFFRIDE PTY LTD does not provide an express warranty for a third-party component, any separate manufacturer's or supplier's warranty may apply.

Nothing in this section limits any rights or remedies available to the Purchaser under the Australian Consumer Law.

If Third-Party Components are subject to a warranty provided by the respective third-party supplier, the Purchaser may request the authorised dealer who supplied the suspension to assist with submitting a warranty claim with the third-party supplier, subject to the terms and conditions of that warranty.

The ongoing maintenance of the suspension is at the Purchaser's expense. The Purchaser may have routine maintenance performed by a suitably qualified person or service centre of their choice, provided that the applicable manufacturer's specifications, Tuffride requirements and relevant legal requirements are followed.

Where the service schedule specifies work that requires specialist equipment, technical procedures or particular adjustments, that work should be performed by a suitably qualified person or service provider.

Failure to follow the required service or maintenance requirements may affect an express warranty claim only to the extent that the failure caused or contributed to the defect or damage claimed.

It is the Purchaser's responsibility to maintain the suspension and keep adequate records of such ongoing maintenance. Failure to maintain the suspension in accordance with Tuffride's maintenance requirements may affect the express warranty where, and to the extent that, the failure to service or maintain the suspension caused or contributed to the defect or failure claimed.

The repair and rectification of stone chips, scratches, surface damage or other deterioration caused by environmental conditions, road debris, impact or other factors unrelated to manufacturing workmanship is the responsibility of the Purchaser and is not the responsibility of TUFFRIDE PTY LTD.

8. SCOPE OF WORKS FOR APPLICATION OF WARRANTY

Where TUFFRIDE PTY LTD, an authorised dealer or an authorised repair centre recommends a particular scope of work in connection with a warranty claim, that scope will be based on the assessment of the reported defect and the work reasonably required to inspect, diagnose and rectify that defect.

1800 883 374
sales@tuffride.com.au
www.tuffride.com.au
14 Humeside Dr Campbellfield VIC 3061

Work undertaken outside the agreed scope without prior approval may not be covered by the express warranty where, and to the extent that, the additional work causes or contributes to the claimed defect, damage or failure.

Nothing in this section operates to exclude, restrict or modify any rights or remedies available under the Australian Consumer Law.

9. SUSPENSION AND WHEEL ALIGNMENT

Every attempt has been made to pre-adjust the toe and camber of the suspension system fitted during the production stage, however, as weight is added to the suspension through the building process it is not uncommon for the suspension toe or camber to move slightly, therefore it is the responsibility of the Purchaser to check this at the first service. Wheel alignment is a maintenance item and should be checked in accordance with the service schedule and following any significant impact, suspension modification or other event that may affect alignment.

Wheel alignment is not covered under warranty except where Tuffride determines that a manufacturing defect has directly caused the misalignment.

Generally, the service time allowed for the setup and adjustment of wheel alignment to a tandem caravan should not exceed 1.5 hours.

Some causes of misalignment are:

a) Sudden jarring or heavy impact caused by hitting something such as a pothole, bumping a kerb, or a road accident;
b) Worn parts such as bushing, etc. caused by wear and tear;
c) Worn tyres or damaged tyres caused by faulty shock absorbers or road changes;
d) Height modification, when suspension has not been changed to suit the ride height;
e) Heavy or unequal loading of a caravan can affect the camber angle; and
f) Unequal airbag or coil spring loads/pressure.

Please take the time to read and acknowledge the warning plates positioned in the front of the suspension

These warning plates are designed as constant reminders for safe travelling.
