EasyCutter

The Ultimate Solution for Higher Productivity

EasyCutter is an **automated cutting machine** designed for seamless compatibility with the EasyBender series.

It supports a wide range of steel rules from **23.3 to 50.8 mm in height and 1.5 to 4 pt in thickness**, offering flexibility for various production needs.

With **up to six customizable tools**, EasyCutter can be configured to meet specific production requirements.

Integrated with EasyBender through the latest software, EasyCutter enables **job distribution and simultaneous operation** to maximize productivity.

TECHNICAL SPECIFICATIONS

Steel Rule	Height	23.3 - 50.8mm
	Thickness	1.5 - 4pt
Cutting	Up to 6 customizable tools (straight, miter, notch, perforation, crease, punch holes, dovetail, etc.).	
Dimensions	1,820 × 1,020 × 1,700mm (W x D x H)	
Weight	330kg	
Power	220VAC, Max. 15A, 50/60Hz, 1P	
Air Pressure	0.5Mpa - 0.6Mpa (Max. 0.7Mpa)
