

## A Better Radiology Model for Hospitals That Can't Afford to Lose

Rising costs. Staffing shortages. Missed follow-ups. Traditional teleradiology isn't solving it.

★ Built for rural and community hospitals

### This Isn't Teleradiology As Usual.

It's a true partnership. One with shared risk, real accountability, and supportive relationships.

- Recover lost imaging revenue
- Reduce denials and missed follow-ups
- Expand radiology capacity
- Lower operational risk
- Adopt advanced tech without added burden

Our ultimate goal is to get hospitals to "zero fees."

#### Performance You Can Count On

Reliable reads.  
Measurable outcomes.

#### Turn Imaging Into Revenue

AI-powered billing +  
follow-up optimization.

#### Modern Infrastructure

Real-time communication.  
No silos.

#### Physician-Led Model

Radiologists guiding care  
and strategy.

Smarter workflows  
Faster turnaround.

AI-powered follow-up  
management.

Seamless  
communication.

Advanced  
breast imaging.

### Missed Follow-Ups? We Solve That.

Nothing falls through the cracks—automated tracking, provider alerts, and patient engagement built in.

### Stronger Performance Starts Here

Let's build a better radiology model together.
