

Civil Society Engagement with the Private Sector for Inclusive WASH

This reading list was developed and shared as part of the private sector learning agenda initiative conducted by the University of Technology Sydney's Institute for Sustainable Futures and other Water for Women partners in 2021. It accompanies the learning brief, [Civil Society Engagement with the Private Sector for Inclusive WASH: Insights from Water for Women](#)

This reading list includes key resources related to private sector engagement in inclusive and sustainable WASH, presented in four sections:

1. private sector roles in WASH
2. fostering inclusion through the private sector
3. sustaining engagement with private sector actors for system strengthening outcomes
4. additional resources.

1. Private sector roles in WASH
