400R/600R
SERIES SPRAYERS

JOHN DEERE

400R/600R SERIES SPRAYERS

INNOVATIVE SPRAYERS. DELIVER PERFORMANCE THAT PAYS.

WHEN YOU NEED SPEED, POWER AND ACCURACY TO NAVIGATE THE TOUGHEST OF SURFACES IN YOUR FIELD, TURN TO THE 9R TRACTORS.

WHEAT | CORN | SOYBEANS

COMFORT YOU ARE LOOKING FOR

When you are facing long days in the field, nothing is more welcome than a spacious and convenient cab to work in. John Deere now offers customers 3 Cab options. Select, Premium, and Ultimate Cab Options.

PRECISION AGRICULTURE

Technology that enables you to monitor performance and maximize your productivity. Key performance indicators can be monitored in map layers and dashboards tiles such as: **Actual Size, Rate Deviations, Pressure, Ground Speed and Drop Size and More**

PRESSURE RECIRCULATION

- The name of the game is Cost saving and Performance
- Save cost where pressure recirculation primes your boom, avoiding liquid to be sprayed out each time to get a uniform spraying pattern.
- And increase your performance with uniform distribution of product across your boom, as well as reducing nozzle clogging.

VISIBILITY

When long days turn into nights, there is no need to stop your operations, as the options are endless when it comes to selecting the right options of lighting packages that will suit your needs.

COMMANDDRIVE™

With the CommandDrive powertrain, save fuel, reduce cab noise, get improved traction in challenging conditions, and cover more acres per day.

- 20 percent or greater fuel savings
- More acres sprayed per day, thanks to fewer fuel stops and improved traction in rough conditions
- Reduced in-cab noise levels by 3to 5 decibels
- Fewer demands on the operator

BOOMTRAC™ PRO 2

For the highest level of spray accuracy with less drift and reduced risk of boom damage, look to the BoomTrac Pro 2 automatic boom-height control system.

EXACT APPLY

Fertilizers and crop protection products are too expensive to waste, and seed is too valuable to risk over-or under-treating. To help make sure your solution is getting to the crop at exactly the right rate and droplet size across a wider range of speeds, John Deere offers ExactApply nozzle control system.

R4023

Rated Hp:173hp
Solution Capacity: 2300L
Total Weight: 13757kg
Boom Length: 18/24.4 - 18/27.4m
Crops Clearance: 112 - 127cm
Spray Speed: 0 - 32km/h

408R

Rated Hp:280hp
Solution Capacity: 3028L
Total Weight: 13757kg
Boom Length: 18/27.4 - 27/40.4m
Crops Clearance: 152cm
Spray Speed: 0 - 32km/h

410R

Rated Hp:310hp
Solution Capacity: 3800L
Total Weight: 15055kg
Boom Length: 27.4 - 40.2m
Crops Clearance: 152cm
Spray Speed: 0 - 40km/h

612R

Rated Hp:355hp
Solution Capacity: 4542L
Total Weight: 16962kg
Boom Length: 27.4 - 40.2m
Crops Clearance: 147cm
Spray Speed: 0 - 40km/h
