

Why Choose Katoni Engineering?

Experienced Team

We have a dedicated team of experienced professionals who have proven track records in their respective fields and who are proud of delivering clear solutions and exceptional customer service.

Tailored Solutions

Our solutions are customised to meet the specific needs of our clients, ensuring that we maximise value and achieve the desired outcomes, whilst always ensuring continued regulatory compliance.

Innovative Approach

We leverage our expertise to deliver innovative solutions that drive improvements in safety culture and understanding.

Practicality

As a company who also delivers executive services we provide practical solutions which can be delivered in the real world.

Contact Us

For more information about our Safety & Compliance services, please don't hesitate to get in touch with our Head of Department, debbi.blackwood@katoni.com. We would be happy to discuss your specific needs and provide customised solutions to help you achieve your goals.

Safety and Compliance

Safety Reviews

We have a multidisciplinary team of experienced professionals from Operations, Design, Regulatory and Verification backgrounds able to assist with and provide innovative solutions to your Safety requirements. These services include:

- a. Regulatory Compliance Technical Assessments.
- b. HSE Interaction Support - inspections, investigations and understanding enforcement.
- c. Incident investigation services and support.
- d. Audit & Assurance - including Reg 5 assessments.
- e. Safety Cases & Safety Reports.
- f. Performance Standard Optimisation.
- g. Safety Screening and Technical Assurance.

Functional Safety

Our Functional Safety expertise can support your full Functional Safety lifecycle requirements. We can offer multidisciplinary engineering support with Process Hazard Analysis, SIF screening and definition, SIS design and equipment selection & qualification, Functional Safety Management & Assurance support and audit, verification, and validation services. More information can be found in our Functional Safety information sheet.

Process Safety Services

Katoni can provide support for a range of Technical and Process Safety activities. HIRA, HAZID and HAZOP Workshops can be facilitated by one of our experienced chairpersons and further supported by our experienced multidisciplinary team - we don't merely facilitate sessions, we participate and input our knowledge and lessons learned from extensive experience. We can systematically identify Process Hazards with robust and thorough analysis of scenarios with knowledge and expertise that make us accurate, repeatable, and efficient.

Electrical Safety Services

We have extensive experience of providing Arc Flash Hazard Management services, supporting the journey to electrical safety through risk assessment, analysis of hazard severity and eliminating these hazards wherever possible. For hazards which cannot be eliminated, we offer effective means of reduction and mitigation. See our dedicated Arc Flash information sheet for more detailed information on how we can help.

Cyber Security

Understanding your Cyber Security responsibilities within Operational Technology is key to securing the safety of your people and your assets. Katoni has extensive regulatory and audit experience within Cyber Security Management Systems and the application of IEC 62443 and HSE Operational Guidance 0086. For more information on the services we provide, please have a look at our dedicated Cyber Security Information Sheet.
