

Extend the Value of Your DQA Platform

Delivering targeted support for measurable impact.

No two hospitals are the same. Patient populations, operational pressures, and priorities all differ, and so do the areas where data quality and reporting matter most.

3terra's Support Services extend and tailor your DQA environment by building targeted audits, strengthening internal capability, and enabling deeper analysis focused on what matters most to your organization.

Leading hospitals use 3terra's Support Services strategically to:

- ✓ **Expand data quality coverage.** We build targeted audits to ensure data quality issues don't undermine funding or performance.
- ✓ **Support their people.** We provide structured, hands-on support to stabilize and elevate performance of your teams.
- ✓ **Enable their analysis.** We extend the platform to deliver tailored analytical capability to answer hospital-specific questions.

BUSINESS IMPACT

- Stronger protection of funding
- Improved responsiveness and executive confidence in reporting
- Reduced risk during staffing transition
- Capacity and capability insurance for your DQA investment

DELIVERY

- Flexible, pre-purchased support hours to use at your discretion
- Discounted rate vs standard pricing

Let's explore where targeted support can deliver meaningful value
