

Scale Smarter With Voice AI for Insurance

Liberate is the System of Action for Insurance, deploying insurance-native AI agents across sales, service, and claims. Liberate helps carriers, agencies, and insurance operators drive 10%+ revenue growth and cut operating costs by 25% by resolving customer requests end-to-end across voice and digital channels.

Built for Insurance

Insurance-engineered, precisely orchestrated to achieve your use case.

Full Service

Insurance-expert engineers manage all implementation and integration into your stack.

Transformative

Elevate policyholder experience, overcome labor challenges and perform smarter.

Compliant

Secure, single-tenant architecture.

Omnichannel

Engage customers in their preferred channel – Voice, Email, SMS, What's App, Digital and Fax.

Multilingual

Open new market share potential and increase satisfaction by communicating in your customer's language.

Integrated

Integrates with comparative raters, including Epic and many more.

Fast

Accelerate your speed to market with solutions that can be deployed in 12 weeks in many cases.

Battle-Tested

Liberate has powered some of the largest, most-mature AI deployments in the insurance industry.
