Application Engineer

Rotterdam, the Netherlands or Munich, Germany

Fixed-term contract (1 year)

Embotech is an award-winning software scale-up developing cutting edge autonomous driving technology and solutions for autonomous vehicles, with focus on private ground applications such as trucks at port terminals and passenger cars in factories. We are delivering safe autonomous transportation by leveraging the real-time optimization technology that we have been developing since 2012.

We are looking for a field Application Engineer who is passionate about complex systems and automation.

We offer an exciting role in a fast-growing company with attractive conditions and flexible hours. Embotech develops innovative products in a modern and dynamic environment, and you can expect an international atmosphere, with highly skilled colleagues with a passion for excellence and efficiency. We are looking for highly motivated people to help us solve one of the most complex challenges of today and take our company to the next level.

Responsibilities

- Cooperation with port terminal system stakeholders and Embotech developers on system integration
- Use case definition of new functionalities
- Supporting on-site vehicle and simulator testing activities
- First point of contact for fleet management software support
- Reporting test results and issues efficiently and to development and business teams
- Cooperation with product management, software engineers, and controls engineers to deliver a well-integrated full autonomous driving stack
- Documenting new processes

Requirements:

- Master's degree (MSc) in Robotics, Mechatronics, Computer Science, Mechanical Engineering, Electrical Engineering, or a related field
- Experience in systems engineering or technical business analysis
- Experience deploying applications at customer sites or in cloud environments

Experience in any of the following areas is considered a plus
-Web development & web application deployment
-Autonomous driving
-Port terminal automation
-Self-motivated team player with a proactive & hands-on approach
-Excellent written and spoken English skills
-Willingness to travel as required

Our preferred starting time for this position is ASAP.

We look forward to receiving your application documents (CV, diplomas and reference letter) by email:
