# WELCOME TO MODUS FIREPLACES

Explore a world where architectural design meets the warmth of flame.

This brochure offers a glimpse into our approach: considered materials and sculptural form, combined with the presence of fire.

For four decades, Modus Fireplaces has worked alongside leading architects and designers, delivering bespoke fireplace concepts for some of the world's most prestigious residential and commercial spaces. Each fireplace is made-to-order, engineered to become a year-round focal point that defines its surroundings.

These pages set out what's possible when innovative design meets fireplace engineering. Every Modus design reflects a commitment to detail and the conviction that a fireplace should perform as well as it looks.

If you can conceive it, Modus can deliver it. We hope this brochure offers a starting point: a way to imagine what emerges when art, craftsmanship and technical rigour converge.

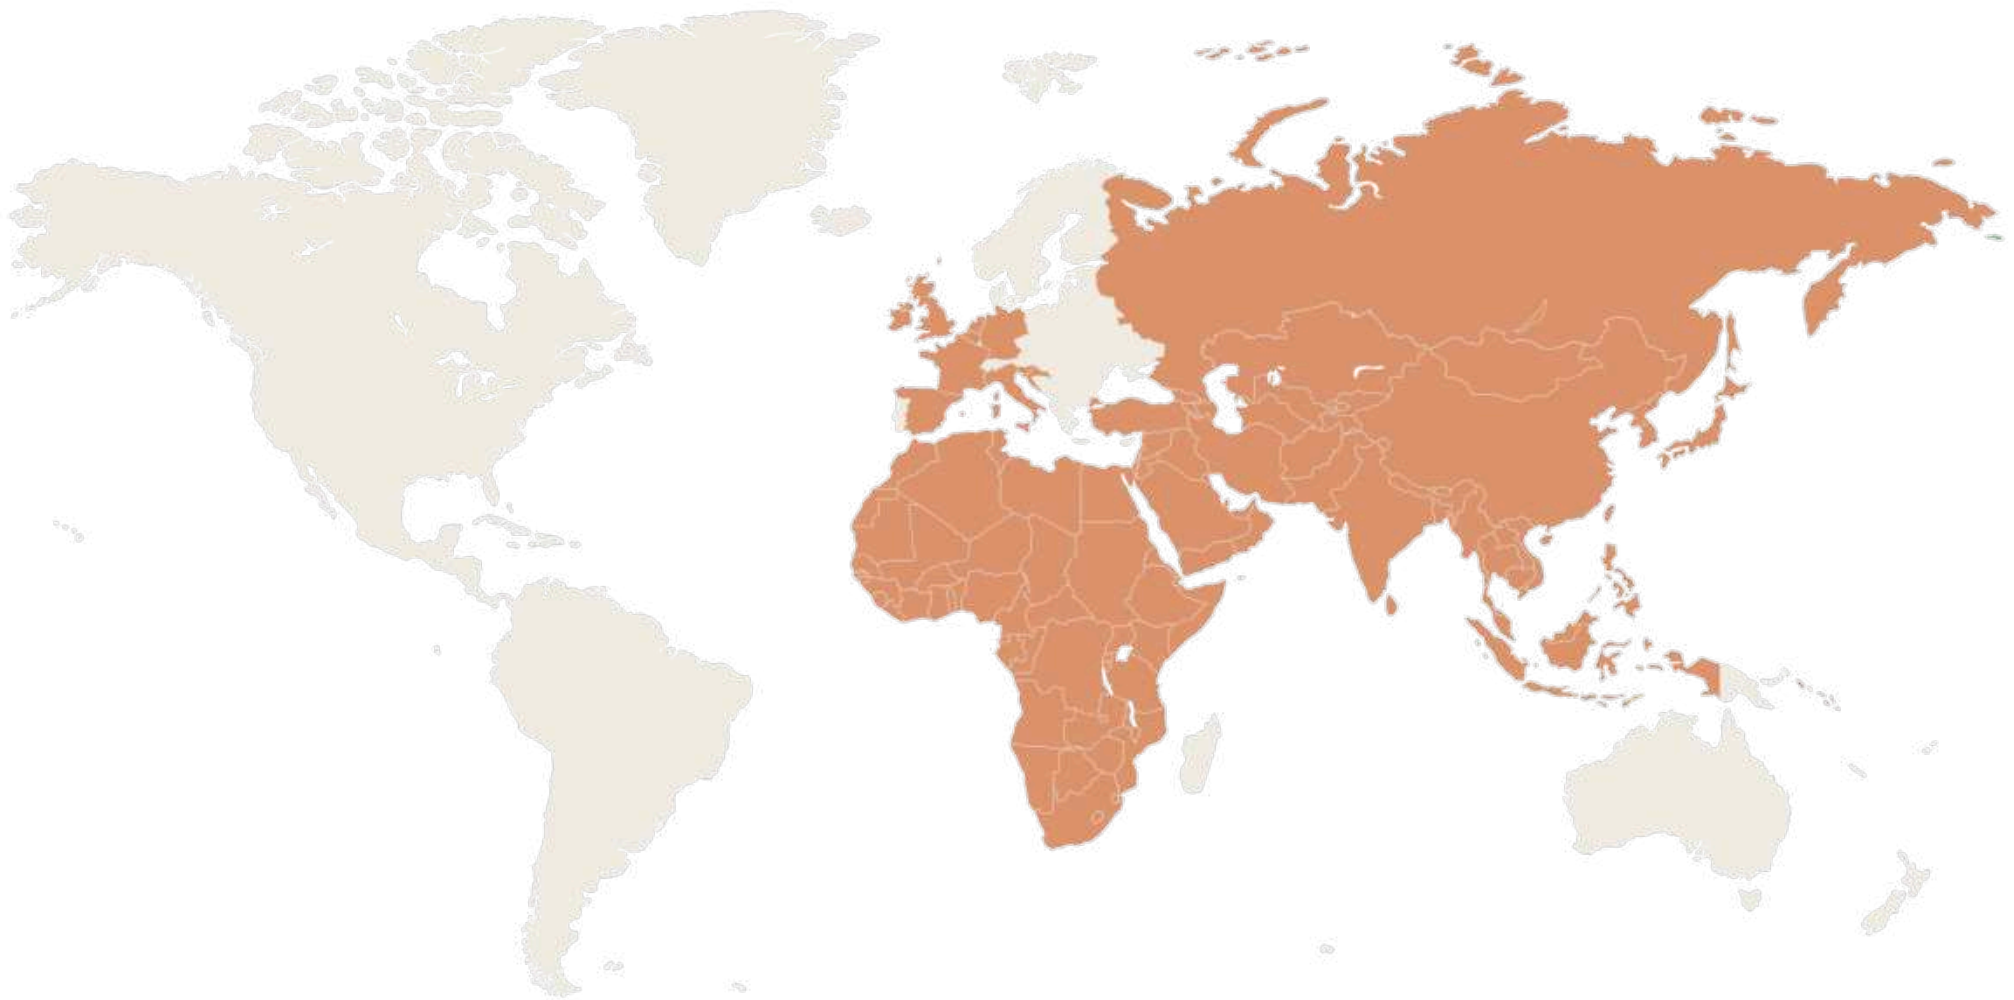

A white, stylized handwritten signature on a dark background. The signature is fluid and modern, with a long horizontal stroke extending to the right.

Daniel Sanders  
Director

## INTERNATIONAL REACH

Although head quartered in the UK, Modus' work extends globally. Our fireplaces are integrated into some of the world's most distinguished residential and hospitality environments - from architect-designed safari lodges to contemporary coastal penthouse developments.

## BESPOKE DESIGNS AND EXQUISITE MATERIALS

At Modus Fireplaces, we craft one-of-a-kind masterpieces. Our designs often begin with high-quality, sculpted metalwork, which we then complement with elements like stone, glass, wood, and liquid metal coatings. The result is a captivating blend of texture and form, creating unique designs that intrigue and inspire.

## PRECISION AND CRAFTSMANSHIP

Through our extensive partnerships across Europe, we source the finest materials and collaborate with skilled artisans. Each fireplace is an example of exceptional engineering, with every detail meticulously handcrafted to create a flawless work of art.

## INDOOR FIREPLACE INSPIRATION

The possibilities for indoor fireplace design are virtually limitless. With decades of specialist experience, Modus is exceptionally well positioned to advise on the perfect solution for any space.

Our offering spans everything from decorative open-fronted fires, available in both wood and gas, to high-spec, sustainable bioethanol options. For clients seeking both beauty and performance, our glass-fronted fires deliver exceptional efficiency, while our realistic electric fires provide a highly versatile alternative.

Every fireplace is meticulously designed by the Modus team and installed by our expert fitters to ensure flawless results.

Bespoke open-fronted wall fireplace with an arched ribbed steel fascia, black steel interior and chamfered stone mantel.

Open fronted gas fire with ribbed steel interior and leather wall cladding.

## CREATING SPACES WITH DISTINCTION

A gas fireplace with a beautifully handcrafted metal surround with a unique, patinated aged brass finish. Combining high quality metalwork with unique finishing processes enables us to create fully bespoke elements and sculpted designs.

## ELEVATED STYLE FOR OPEN PLAN LIVING

Our custom designs seamlessly integrate with open-plan layouts, using glass elements to allow light to flow across the space. From our suspended, glass canopy designs, room-divider fireplaces with wrap-around furniture bases to double-sided installations that connect kitchen and dining areas, Modus Fireplaces adds a warm, cohesive presence to open spaces.

A full width media wall with a bioethanol fire at its heart stretches across this large open plan space. The ribbed metal behind the flames provide a layer of detail and the micro cement coated joinery provides a seamless surround.

A double- sided fire, built into an external wall that brings the outside in.

A modern, 2m, 3-sided fireplace incorporated into a dividing wall between a kitchen dining area and a TV room with the long linear fire visible from 3 sides.

A completely bespoke fireplace defined by a dramatic suspended canopy in aged bronze liquid metal. A hand-formed granite base with a polished central disc reflects and amplifies the flames

## THE ART OF FIRE FOR OUTDOOR LIVING

The Modus Outdoor Collection is designed to transform gardens and terraces into year-round sanctuaries with exquisitely designed outdoor fireplaces.

Thoughtfully crafted to enhance both warm summer evenings and the chill of winter days, our collection merges functional warmth with refined elegance, creating a captivating focal point for any setting.

Our outdoor fireplaces come in an array of styles and sizes, each designed to integrate seamlessly into diverse landscapes and architectural styles. At the core of this collection are our bespoke outdoor gas fire tables, which offer the perfect blend of comfort, style, and versatility. Tailored to your preferences, these fire tables can be customised with a luxurious selection of cladding options, from natural stone to sleek metal finishes, allowing you to personalise each piece to elevate and redefine your outdoor ambiance.

With a focus on craftsmanship and quality, our outdoor fireplaces provide not only radiant warmth but also an inviting, sculptural presence that enhances the beauty of your outdoor environment, making it an extraordinary gathering space for every season.

Luxury handcrafted outdoor bioethanol Fire Pot - doubling up as a convenient coffee table when not in use.

Bespoke Gas Fire Pit with customisable metal and stone cladding options.

The Pebble Fire Table, available in gas, wood and bioethanol and an extensive array of colours and finishes.

Modus' collection of Fire Tables brings a new level of sophistication to outdoor living. Combining exquisite design with state-of-the-art technology, they function both as atmospheric fire features and practical coffee tables for aperitifs and entertaining.

Powered by a discreet gas supply and ignited at the touch of a button, our Fire Tables offer effortless warmth and ambience. When not in use, a sleek protective lid slides into place, transforming the piece back into a versatile and elegant outdoor piece of furniture.

## FOCUS CREATION FIREPLACES

Focus Creation Fireplaces represent some of the most iconic forms in contemporary fire design - suspended, sculptural statements that redefine the relationship between flame and architecture. Conceived as spatial centrepieces rather than functional add-ons, each model merges engineered precision with bold, enduring form.

Working closely with architects and designers, Modus Fireplaces ensures these landmark fireplaces are seamlessly integrated into UK projects, meeting technical and regulatory requirements with absolute precision.

Many of the wood-burning models are DEFRA approved, enabling specification within smoke control areas without compromising on authentic flame or architectural impact.

## COMMERCIAL PROJECTS

We are honoured to have partnered on some of the most prestigious hotel projects across the UK and internationally, bringing warmth and ambiance to luxury spaces around the world. In each project, a thoughtfully designed fire feature serves as more than just a source of warmth - it becomes the heart of the space, drawing guests into its welcoming glow.

In grand communal lounges, Modus Fireplaces create striking focal points, adding an inviting element that enhances the atmosphere and aesthetic of the setting. Meanwhile, in more intimate, private spaces, our fireplaces introduce a touch of ambient elegance, delivering warmth and comfort that seamlessly integrates with the refined interiors.

Each installation is a testament to our commitment to quality, craftsmanship, and design, transforming hospitality spaces into unforgettable environments where warmth and sophistication meet.

## WORKING WITH US

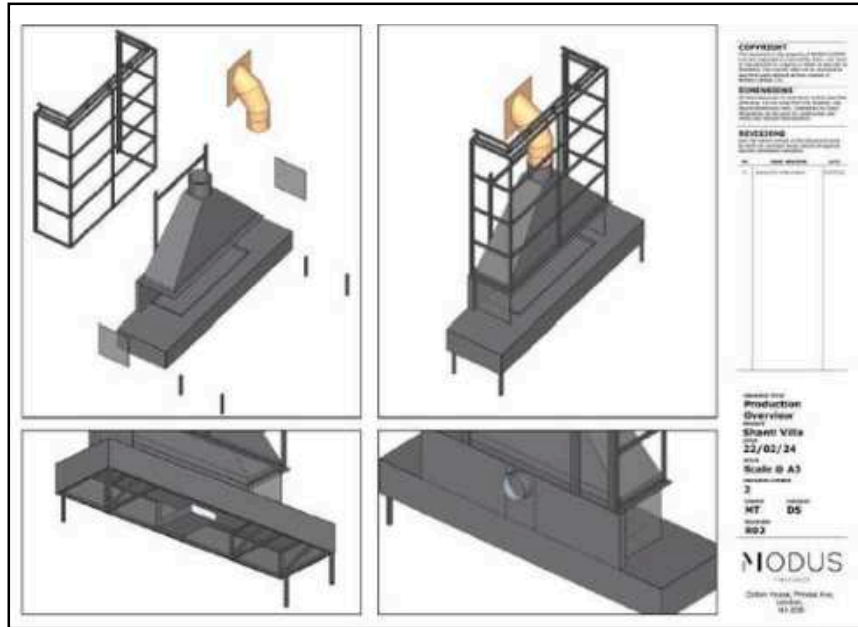

At Modus Fireplaces, we offer a comprehensive service encompassing every stage of your project - from initial design through to fabrication and seamless installation. Our goal is to ensure a flawless process, meticulously coordinating with surrounding construction and interior design elements to bring your vision to life.

Our in-house project designers begin by conducting thorough site surveys, allowing us to understand the unique spatial and aesthetic requirements of your project. We then develop precise technical and design documentation, providing both 2D technical drawings and 3D visual models for a clear and detailed representation of the proposed installation.

Our dedicated project managers oversee every aspect of the process, ensuring meticulous attention to detail at each stage. Working in close collaboration with our skilled installation team, they coordinate all on-site operations to guarantee a smooth and efficient installation, concluding with a rigorous quality check and project sign-off.

Modus Fireplaces takes pride in providing a streamlined, expertly managed experience tailored to meet the highest standards of design, craftsmanship, and installation excellence.

The logo features the word "MODUS" in a large, black, sans-serif font. A large, light beige arrow points diagonally downwards from the top left towards the bottom right, passing behind the text. To the left of the main text, there is a vertical light beige bar. Below the main text, the words "FIREPLACES" and "GET IN TOUCH" are centered in a smaller, black, sans-serif font. Below these, the website "www.modusfireplaces.com", the email "info@modusfireplaces.com", and the phone number "+44(0)208 906 9988" are listed in a smaller, black, sans-serif font.
