BNP PARIBAS SA	FR0000131104	Aligned	BNP PARIBAS SA was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
Duerr Aktiengesellschaft	DE0005565204	Aligned	Duerr Aktiengesellschaft was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
L'AIR LIQUIDE SOCIETE ANONYME POUR L'ETUDE ET L'EXPLOITATION DES PROCEDES GEORGES CLAUDE SA	FR0000120073	Neutral	L'AIR LIQUIDE SOCIETE ANONYME POUR L'ETUDE ET L'EXPLOITATION DES PROCEDES GEORGES CLAUDE SA was assessed as Neutral with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Neutral with SDG 13. At the time of our assessment, the company did not have policies or practices nor substantial activities or events that positively or negatively impacted SDG 13.
ERG S.P.A.	IT0001157020	Aligned	ERG S.P.A. was assessed as Strongly Aligned with SDG 13. The company's products and services were Strongly Aligned with SDG 13. At the time of our review, we estimated the company generated revenues from alternative energy technologies or services that positively impacted SDG 13. The company's products and services over SDG 13 resulting in it being Strongly Aligned with SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
KERRY GROUP PUBLIC LIMITED COMPANY	IE0004906560	Aligned	KERRY GROUP PUBLIC LIMITED COMPANY was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
Wolters Kluwer N.V.	NL0000395903	Aligned	Wolters Kluwer N.V. was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
BUREAU VERITAS SA	FR0006174348	Neutral	BUREAU VERITAS SA was assessed as Neutral with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Neutral with SDG 13. At the time of our assessment, the company did not have policies or practices nor substantial activities or events that positively or negatively impacted SDG 13.
ASM International N.V.	NL0000334118	Aligned	ASM International N.V. was assessed as Neutral with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13. The company's GHG emissions intensity remained stable in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
Metso Oyj	FI0009014575	Aligned	Metso Oyj was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
Aalberts N.V.	NL0000852564	Aligned	Aalberts N.V. was assessed as Neutral with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was higher by over 10% compared to industry peers that negatively impacted SDG 13. The company's operations overall positively impacted SDG 13 resulting in it being Aligned with SDG 13.
PUMA SE	DE0006969603	Aligned	PUMA SE was assessed as Neutral with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13. The company's GHG emissions intensity remained stable in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
HERMES INTERNATIONAL S.C.A.	FR0000052292	Aligned	HERMES INTERNATIONAL S.C.A. was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial impacts or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.

ISSUER_NAME	ISSUER_ISIN	SDG_13_OPER_ALIGNMENT	SDG_13_ALIGNMENT_SUMMARY
EDP, S.A.	PTEDP0AM0009	Aligned	EDP, S.A. was assessed as Aligned with SDG 13. The company's products and services were Aligned with SDG 13. At the time of our review, we estimated the company generated 28.6% of revenues from alternative energy technologies or services and 4.16% of revenues from hydropower energy that positively impacted SDG 13. We estimated the company generated 7.61% of revenues from fossil fuel energy and 2.42% of revenues from oil and gas-related activities that negatively impacted SDG 13. The company's products and services overall positively impacted SDG 13 resulting in it being Aligned with SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
ENEL - SPA	IT0003128367	Aligned	ENEL - SPA was assessed as Aligned with SDG 13. The company's products and services were net Neutral with SDG 13. At the time of our review, we estimated the company generated 9% of revenues from alternative energy technologies or services and 6.44% of revenues from hydropower energy. We estimated the company generated 3.1% of revenues from fossil fuel energy and 8.1% of revenues from oil and gas-related activities. The company's products or services both positively and negatively impacted SDG 13 resulting in a net neutral assessment. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
ASML Holding N.V.	NL0010273215	Aligned	ASML Holding N.V. was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial revenues from products or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
Akzo Nobel N.V.	NL0013267909	Aligned	Akzo Nobel N.V. was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial revenues from products or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
Andritz AG	AT0000730007	Aligned	Andritz AG was assessed as Aligned with SDG 13. The company's products and services were Strongly Aligned with SDG 13. At the time of our review, we estimated the company generated 18.5% of revenues from alternative energy technologies or services and 0.62% of revenues from oil and gas-related activities that negatively impacted SDG 13. The company's products and services overall positively impacted SDG 13 resulting in it being Strongly Aligned with SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13. The company's GHG emissions intensity remained stable in the last three reported years and the company's operations overall positively impacted SDG 13 resulting in it being Aligned with SDG 13.
Banco Santander, S.A.	ES011390037	Aligned	Banco Santander, S.A. was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial revenues from products or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
DASSAULT SYSTEMES SE	FR0014003TT8	Aligned	DASSAULT SYSTEMES SE was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial revenues from products or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
Infineon Technologies AG	DE0006231004	Aligned	Infineon Technologies AG was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial revenues from products or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
INTESA SANPAOLO SPA	IT0000072618	Aligned	INTESA SANPAOLO SPA was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial revenues from products or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
KINGSPAN GROUP PUBLIC LIMITED COMPANY	IE0004927939	Aligned	KINGSPAN GROUP PUBLIC LIMITED COMPANY was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial revenues from products or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
Koninklijke KPN N.V.	NL0000009082	Aligned	Koninklijke KPN N.V. was assessed as Aligned with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial revenues from products or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13 resulting in it being Aligned with SDG 13.
L'OREAL SA	FR0000120321	Aligned	L'OREAL SA was assessed as Neutral with SDG 13. The company's products and services were Neutral with SDG 13. At the time of our review, the company did not generate substantial revenues from products or services that positively or negatively impacted SDG 13. The company's operations were Aligned with SDG 13. At the time of our assessment, the company had programs to reduce GHG emissions and had targets for carbon reduction or energy efficiency improvement and its GHG emissions intensity decreased by over 5% in the last three reported years and GHG emissions intensity over the last three reported years was lower by over 10% compared to industry peers that positively impacted SDG 13. The company's GHG emissions intensity remained stable in the last three reported years and the company's operations overall positively impacted SDG 13 resulting in it being Aligned with SDG 13.
