

Live Event Streaming Specialist

Objective: To Deliver Seamless Live Experiences Through Real-Time Streaming

The Live Event Streaming Specialist ensures CVIA events are accessible beyond the physical room by managing high-quality live broadcasts. This role focuses on capturing and delivering events in real time with clarity, stability, and professionalism, so audiences can fully engage no matter where they are.

You'll be responsible for setting up and managing live streams, monitoring audio and video quality, troubleshooting technical issues as they arise, and coordinating with event hosts to ensure smooth transitions throughout each broadcast. This role is essential in extending the reach of CVIA's work and maintaining a reliable virtual experience for attendees.

This role is a strong fit if you:

- Have experience with live streaming platforms (Zoom, YouTube Live, OBS, or similar tools)
- Are comfortable handling basic audio/video setup and troubleshooting in real time
- Can stay calm and solution-focused during fast-moving live environments
- Have strong attention to detail and reliability during scheduled events
- Enjoy working behind the scenes to support impactful experiences
- Own streaming or A/V equipment, or have relationships with local audio, visual, or lighting providers (a plus)

Commitment:

Flexible, based on event scheduling. Typically includes pre-event setup, live event coverage, and brief post-event wrap-up.

If Interested:

Please email Amanda at amanda@cvia.ai with the volunteer opportunity you are interested in as the subject line. In your message, include a brief overview of your relevant experience, skills, and why you're interested in supporting CVIA.
