Triple-Brush System for Dry-Wet Separation Sweep and Scrub in One Pass

The triple-brush system improves cleaning efficiency by 100% and adapts to carpets and mixed hard floors for continuous sweeping and scrubbing without component changes required.

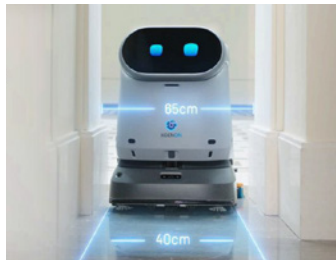

Fast Drying After Scrubbing

Powerful suction motor instantly removes water, preventing residue and potential safety hazards.

Removable & Washable Dirty Water Tank Prevents Odors and Bacteria

400mm Wide Brush for Efficient and Versatile Cleaning

Body Width: 55cm
Minimum Passage Width: 65cm
Vacuum and Scrub Width: 40cm

Multi-Modal 3D Perception for Complex Environments

Equipped with Ten Detection Components, including LiDAR, Dual Stereo Vision, Four High-Precision Line Lasers, and Three Ultrasonic Modules, Easily Handles Crowds and Irregular Obstacles

PRODUCT SPECIFICATIONS

Dimensions(WxDxH)

578 × 500 × 690mm (without squeegee)

616 × 550 × 690mm (with squeegee)

Weight

70 kg (including battery)

Charging Time

2 hours (supports quick battery replacement)

Maximum Runtime

Floor scrubbing: up to 5 hours

Floor sweeping: up to 12 hours

Battery Specification

DC 25.6V, 50Ah

Cleaning Width

Sweeping: 560mm (with dual side brushes)

Vacuuming & Scrubbing: 400mm

Cleaning Efficiency

Up to 1,100m²/h

Clean Water Tank Capacity

Clean Water Tank: 16 L

Waste Water Tank: 14 L

Dust Bag Capacity

8L

Trash Bin Capacity

0.7L
