What Makes creora® Fresh Clean Cut 4 Ways Stretch Micro

Special ?

creora®
Fresh

67% Polyamide 33% Elastane

Odour-resistant elastane with high power stretch, chemically bonding to Isovaleric Acid, Acetic Acid, Ammonia, and Nonenal for higher and longer deodorising effects.

Independent testing shows creora® Fresh exceeds ISO deodorisation standards when blended at 10-15% elastane content in nylon or polyester single jersey.
