IV. INVESTMENT POLICY

Investment Objective and Policy

The primary objective of the Fund is to seek long-term capital appreciation. The Fund will aim to achieve this investment objective by investing principally in equity securities listed on the stock markets of the MENA Countries. From time to time, the Fund may also invest in equity related, hybrid and debt securities listed in the MENA Countries in addition to unlisted debt securities issued by the governments or quasi government institutions of MENA Countries. The fund may also invest in MENA domiciled companies listed elsewhere.

Benchmark

The current benchmark of the fund is S&P Pan Arab Index as computed by the index provider, Standards and Poor.

Investment Strategy

The Investment Manager intends to invest in fundamentally attractive stocks with limited downside risk over a medium to long term investment horizon. The Investment Manager will adopt a stock picking approach to develop a concentrated portfolio of companies that are expected to meet the objective of the Fund. Instead of attempting to outperform a particular index, the Investment Manager will aim to achieve stable capital appreciation over the long-term by investing in a combination of companies at various stages of their life cycle in order to manage the overall risk profile of such portfolio. The Investment Manager will continuously assess market conditions and dynamically adjust asset class as well as country allocations in order to efficiently manage the Fund.

The Investment Manager has committed resources to generate research internally both at a macro and micro level. The investment process would be research based, where all investment decisions are made in light of in-depth research and analysis. The Investment Manager will attempt to visit companies across the region in order to gain a better understanding of the business dynamics of the companies that the Fund invests in. The Investment Manager will rely mainly on its proprietary research to make investment decisions; however, research produced by external sources will also be utilised in the process.

General Restrictions

In attempting to achieve long-term capital appreciation for the Fund, the Investment Manager would be required to adhere to the following restrictions:

- (a) The Fund shall not invest less than 50% of its NAV in equity securities listed on the stock markets of the GCC Countries;
- (b) The Fund shall not invest more than 50% of its NAV in equity securities listed in any one country. However, in the case of Saudi Arabia, the fund may invest up to the benchmark weight plus 10%;¹

¹ “Initially when the Fund was setup, it was deemed suitable to invest up to 50% in any one country to achieve the Fund’s investment objective and the country limits were set accordingly. Later on this limit was increased to allow the Fund to have an exposure equal to benchmark weight, the reason being that Saudi Arabia, as the

- (c) The Fund shall not invest more than 10% of its NAV in any equity security. However, if the weight of the security in benchmark i.e. S&P Pan Arab Index is higher than 10%, then the fund may invest up to the benchmark Plus 5% ;
- (d) The Fund shall not invest more than 20% of its NAV in equity related and hybrid securities and not more than 40% of its NAV in debt securities provided that the aggregate of equity related, hybrid and debt securities does not exceed 50% of its NAV;

- (f) The Fund shall not make any investments that would expose it to unlimited liability;
- (g) The Fund shall not deal short or on margin;
- (h) The Fund will not make any loan or give any guarantee;
- (i) The Fund will not take or seek to take legal or management control over the issuers of any of its underlying investments; and

An updated copy of the Information Memorandum has been made available to the CBB and the Investors through notification of the changes procedure prescribed by the CBB. Redemption option is available to the existing Investors of the expert Fund and Unitholders of Class B Units until 31 July 2023. Legal Limitations

Any subsequent changes to the Information Memorandum or the Instrument shall be notified to the Investors and to the CBB.

region's largest market had grown significantly in terms of new listings and market capitalization. Currently it accounts for more than 60% of the market capitalization of the GCC Countries. The current guidelines for the Fund do not allow us to have an overweight position in Saudi Arabia which severely restricts our asset allocation capability. Given that asset allocation is considered the single largest contributor to alpha or excess returns, we have revised the allocation limit to Saudi Arabia to allow the Fund to invest 10% in excess of its benchmark weight. This will allow the Fund to benefit from the upside potential in the Saudi market as it opens up to the foreign. We strongly advise investors to read the Risk Factors section to understand the risk this entails."

In managing the Fund, the Fund Company and the Investment Manager will comply with the requirements of Bahrain Law and other relevant laws. In particular, the Fund Company and the Investment Manager will, and will cause the Fund to, comply with the requirements of CBB's Collective Investments Undertakings Regulations as contained in the CBB rulebook, Volume 7, Capital Markets Collective Investment Undertaking Module and subsequent supplementary regulations that have been approved and issued by the CBB.

V. RISK FACTORS

An investment in the Units involves certain risks relating to the investment strategies of the Fund Company and the Investment Manager. No representation is hereby made that the Fund's investment objective will be achieved. The following is intended as a summary of certain investment considerations and risks associated with this investment, but is not exhaustive and must be supplemented by the Investors' own analysis of, among other things, Investors' personal or corporate financial circumstances.

Emerging Market Risk

The prospects for economic growth in MENA region is considerable and equity returns have the potential to exceed those in mature markets as growth is achieved. However, generally accepted accounting, auditing and financial reporting practices in emerging markets may be significantly different from those in developed markets. In relation to mature markets, some MENA Countries may have a low level of regulation, enforcement of regulations and monitoring of investors' activities. The securities markets of these countries are not as large as the more established securities markets and may at times have substantially less trading volume, resulting in a lack of liquidity and high price volatility. There may be a high concentration of market capitalisation and trading volume in a small number of stocks as well as a high concentration of investors and financial intermediaries. These factors may adversely affect the timing and pricing of the Fund's acquisition or disposal of securities. The MENA Countries have at times exhibited high volatility and sudden decline in prices of equities and therefore cannot be assured to give stable and/or positive returns in the future. Therefore, the Fund's return may be expected to fluctuate in response to changes in the value of the underlying investments.

Currency Risk

The Fund will primarily invest in GCC Countries and may also invest in MENA countries. The price of the Unit is denominated in U.S. Dollars and any shift in the exchange rate or the peg rate of any country may potentially expose Investors to adverse fluctuation in returns.

There might be volatility in the value of investments due to the movement in the exchange rate.

The Fund does not enter into currency hedging transactions in order to provide protection against exposure to currency risk. A difference in exchange rate may cause a loss when the currency exchange rate on the redemption day differs from the exchange rate on the subscription day. Further, the Fund and the investments made by the Fund are subject to the possible imposition of exchange control regulations or currency blockages. The Redemption and the Dividend payouts may also get impacted due to such impositions exchange control regulations or currency blockages.

Term of Investment

Equity investments by their very nature are high-risk investments with possible sudden decline in prices due to various factors resulting in a potential loss of capital. Therefore, investment in the Fund should be regarded as a high-risk investment, and there can be no guarantee that the Investment Manager will achieve the Fund's objective and the Investor will recover the full amount invested. Furthermore, an investment in the Fund should be viewed by applicants as of a long-term nature.

Liquidity

On many stock markets in the MENA countries, liquidity and marketability of quoted securities may be limited due to lack of depth and narrow investor participation. Trading value compared to market capitalization in some of these markets is lower than that exhibited by more developed markets. This among other things may also adversely affect the performance of the Fund especially in times of extreme market conditions or due to substantial redemptions by Investors forcing the Fund to involuntarily liquidate positions.

Absence of Voting Rights

Investors in the Units have no voting rights and do not participate in the management of the Fund Company or the Fund. Investors generally have no right to influence the management of the Fund whether by voting against, withdrawing, removing or replacing the Investment Manager or otherwise. Furthermore, Investors have no right to terminate any agreement to which the Fund is or may be a party.

Legal Status

The Fund is a collective investment scheme created by the Fund Company, and is structured as a contractual arrangement between the Fund Company and the Unitholders. This contractual arrangement is regulated and supervised by the CBB. The Fund is intended to be separate from the Fund Company.

Absence of Transferability of Units

It is not anticipated that there will be any public market for the Units. The Units may not be directly or indirectly sold, transferred or assigned, by operation of law or otherwise, in whole or in part, without the prior written consent of the Investment Manager, which may be granted or withheld in its sole discretion. Any attempt to transfer Units, other than by way of redemption in the manner described in this Information Memorandum, constitutes a tender to the Investment Manager for the redemption of Units.

Conflicts of Interest

Under Bahrain Law, an Investment Manager is obligated to act for the benefit of the Fund with respect to matters within the scope of the Investment Management Agreement. The Investment Manager may also invest in the Fund as per the terms and conditions. . The Fund may engage their affiliated brokerage entities to provide brokerage for the Fund in the respective markets served by such affiliates. As a result, like any other regulated financial services group that operates a collective investment scheme in Bahrain, conflicts of interest situations may arise. Keeping the interests of the Investors as paramount, the Investor Manager has taken reasonable steps to identify, manage and monitor conflicts of interest in order to prevent them from adversely affecting the interests of the Investors:

Management of conflicts

Affiliate brokers: Where Fund engages their affiliated brokerage entities to provide brokerage for the Fund, the Fund will evaluate the competitiveness of the affiliated broker with other market participants. All engagements are carried out at an arm's length basis.

Common Directors: The Fund Company, Investment Manager and affiliate brokers may have common Directors. To manage the conflicts arising from common Directors, the Investment Manager has established and will maintain the Code. The Code defines the necessary guidelines to ensure the high ethical standards maintained by SICO are applied on a consistent basis by the Directors and others to manage those conflicts.

Except when disclosure is required under the law, the Directors must observe in full any confidentiality obligations, including, but not limited to, customer information. The following are the guiding principles of confidentiality embedded in the Code:

i. The need-to-know principle: Directors should only receive or have access to confidential information that is necessary for the proper performance of their role, and are prohibited from sharing such information with anyone, either within or outside Investment Manager, who does not have a legitimate need-to-know.

ii. Providing safeguards: Directors may become privy to confidential information (i.e., information not generally available to the public) concerning the affairs, plans and business transactions of Investment Manager, its present and prospective customers, its suppliers, its shareholders and other Directors.

iii. Release of customer information: Confidential information should not be shared under circumstances in which it would be reasonable to believe the information could be misused.

iv. Personal use: Confidential information obtained as Director is not to be used for the purpose of furthering any private interest or as a means of making any personal gain.

v. Sectional: Confidential information concerning the business affairs, plans and customers of Investment Manager that are available to one unit of the Investment Manager should be communicated to other units only when a legitimate business need exists.

vi. Data protection: Directors as required to comply with applicable data protection laws.

vii. Competition: Discussions and agreements, oral or written, with competitors concerning pricing or other competitive policies, which could be considered as unethical or uncompetitive are not permitted. Directors are required to take care to ensure that competitive policies are not discussed in meetings of trade associations or other banking groups.

viii. Handling confidential information: When information is shared with individuals that fall under the need-to-know principle, all contractual, legal and regulatory requirements relating to confidentiality, privacy, consent or disclosure requirements are required to be strictly adhered to.

ix. Information barriers: The Investment Manager also uses ‘information barriers’ or ‘Chinese walls’ controls to maintain confidentiality and to help prevent the misuse or unauthorised disclosure of this protected information. The cornerstone of the implemented information barrier is the need-to-know principle, as outlined in *i.* above. Usually, standard information barriers are implemented to ensure that only those who have a legitimate need-to-know are able to access such information; however, in some instances, enhanced information barriers are established to help prevent the misuse or unauthorised disclosure of the protected information, and ensure that only those who have a legitimate need-to-know are able to access such information.

Custodial Risk

Risks exist with respect to the operations and services offered by the Custodian. The assets of the Fund will generally be held by the Custodian directly or through its agents, sub-custodians, or delegates pursuant to the Custodian Agreement. The Custodian may also, on the instructions of the Fund or the Fund Company, open accounts with any bank or financial institution (including any bank or financial institution that is not a member of HSBC group) and instruct the Custodian to place cash of the Fund in such accounts. The Custodian shall control, operate, and monitor the bank accounts but will not be responsible or liable to any person whatsoever, (including the Fund and the Funds Company) in respect of any loss of the cash, securities and/or other assets comprising the assets of the Fund held in such accounts or not deposited with or held to the Custodian's order, occasioned by reason of the liquidation, bankruptcy or insolvency of such bank, financial institutions or other persons.

Ownership of Fund Assets

Care will be taken to ensure that the Fund assets are separately identified as being held on behalf of the Fund and its investors and, to the extent possible, to protect those assets in the event of the insolvency of any party holding Fund assets. However, it is possible under the laws of Bahrain or other relevant jurisdiction, that a court may not protect the assets of the Fund from the liquidators of any such party in the unlikely event that the Custodian or a nominee becomes insolvent.

Regulatory framework

The regulatory supervision, legal infrastructure and accounting, auditing and reporting standards in the MENA countries may not provide the same degree of protection as would generally exist in more mature or developed markets. This may affect the valuation of the assets in which the Fund invests although every effort will be exerted to comply with international accounting standards.

The MENA Countries may have restrictions against the entry by a foreign Investor, such as the Fund, into transactions involving assets, including securities, which are listed on the financial markets of such countries or which are traded in some form or another in such countries.

Economic and Political Stability

Investment in the MENA Countries may carry a high degree of economic and political risks. On the economic front, the economies of GCC and MENA countries while striving to diversify are primarily oil-driven economies. A prolonged period of low oil prices can potentially affect the economic health of the GCC and MENA economies and may result in an overall recession in the region. The currencies of MENA economies and some GCC countries are not pegged to the U.S. Dollars and as in the past, these currencies could potentially experience significant volatility.

Taxation

The Fund Company, with the assistance of the Investment Manager, will take reasonable steps to mitigate the Fund's tax liabilities. Investors should review carefully this Information Memorandum and the Subscription Agreement and discuss with their tax advisors the specific tax and other consequences of investing in the Fund.

Any change in the Fund's tax status or in taxation legislation or accounting practice could adversely affect the investments.

Mandatory Redemption

Compulsory redemption may result in the liquidation of investments under conditions less favourable as the liquidity of some of the underlying assets may not allow for an orderly liquidation at the prevailing market prices, and consequently result in loss to Investors.

Concentration Risk

To the extent that the Fund's portfolio reflects concentration in the securities of issuers in a particular market the Fund may be adversely affected by the performance of those securities, may be subject to increased price volatility and may be more susceptible to adverse economic, market, social or political conditions or regulatory occurrences affecting that market and the Fund's investment performance may also be more volatile.

Investment by Investment manager

The Investment Manager, and/or its affiliates, may, but shall not be obligated to, invest in the Fund on the same terms and conditions as other investors, including during initial subscriptions, follow-on offerings, or secondary transactions. Such investments, if made, shall be subject to the Fund's governing documents, applicable laws and regulations.

The foregoing is not a comprehensive list of investment risk factors, and potential Investors are urged to consult with their professional advisors as to the legal, regulatory, tax and business risks involved in this Fund.

VI. SUBSCRIPTIONS AND REDEMPTIONS

Initial Offering

The Fund had offered an Initial Offering of 200,000 Class A Units and 100,000 Class B Units and Class C Units at the price set out in the paragraph “Subscription Price” in the section headed “Definitions”

Further Subscription

Each of Class A Units, Class B Units and Class C Units can be subscribed for on each Subscription Day provided the Fund has received a completed Subscription Agreement and cleared subscription monies at least three Business Days prior to such Subscription Day (subject to the discretion of the Directors to waive such notice).

Subscription Price

Each of Class A Units, Class B Units and Class C Units will be offered subsequent to the Initial Offer Period relevant to that class of Units on each Subscription Day at the NAV calculated for that class of Units on the relevant Dealing Day plus a subscription fee of 2% thereon. However, the Directors or the Placement Agent, acting in their sole discretion, may increase the minimum subscription amount.

The Fund encourages payment of monies in U.S. Dollars. If the Investor pays for Units in any currency other than the U.S. Dollar, the subscription amount will be converted at the exchange rate as obtained by the Fund. The exchange rate used to convert such currency may be subject to change if a fluctuation in the exchange rate should take place between the date on which payment for the Units is received and the day on which the payment is converted into the Base Currency of the Fund. Any such exchange rate fluctuation risk is the responsibility of the Investor and neither the Fund, the Fund Company, the Investment Manager, the Placement Agent nor the Administrator will be liable in any way for such risk. No third party payment will be accepted.

Minimum investment

The minimum investment is US\$ 100,000 for Class A, US\$5 million for Class B Units and US\$10 million for Class C Units.

Subscription Agreement

Prospective Investors will be required to complete and return the Subscription Agreement. The completed Subscription Agreement should be sent to the Registrar or its delegate, or an authorised placement agent, details of which are provided in the Subscription Agreement, and must be received at least two Business Days prior to the relevant Subscription Day (or such later time as may be agreed by the Directors of the Fund at their sole discretion). The subscription monies in cleared funds must be paid by 12 noon on the Business Day immediately preceding the relevant Subscription Day. If the Subscription Agreement and/or cleared funds are received after the deadline, it will (unless otherwise determined by the Fund Company) be treated as a request for subscription on the directly succeeding Subscription Day unless the Fund Company or the Placement Agent determines otherwise.

The completed Subscription Agreement will (save as determined by the Fund Company) be irrevocable and may be sent by facsimile at the risk of the applicant. The originals of any Subscription Agreement sent by facsimile should be sent immediately by post or by internationally recognised courier. Failure to provide the original Subscription Agreement may at the discretion of the Directors result in cancellation of the allotment of the Units.

Issue of Units

Units will be issued in the form of an electronic certificate. The Registrar will maintain the official register of Units. Units shall be accounted for in fractions up to four decimal places, with the fifth decimal being rounded up if it has a value of five or higher.

Confirmations will be sent to applicants on approval of their application (i) soon after the relevant Subscription Day and (ii) once NAV for that class of Units has been calculated setting out details of the Units they have been allotted.

Combating Money Laundering and Terrorist financing

The Fund will comply with Bahrain's Legislative Decree No. (4) of the year 2001 with respect to Prohibition and of Combating Money Laundering, Decree Law No. 58 of 2006 with Respect to the Protection of Society from Terrorism Activities and the various Ministerial Orders issued there under including, but not limited to, Ministerial Order No. (7) of 2001 with respect to the Institutions' Obligations Concerning the Prohibition of and Combating Money Laundering and any other regulations (AML or Terrorist Financing) issued by the CBB from time to time.

As a result of the applicable anti-money laundering and prohibition against terrorist financing regulations, identification documentation is required along with the subscription request for Units. The Directors, the Placement Agent and the Investment Manager reserve the absolute right to require further verification of the identity of each potential Investor or that of the person or entity on whose behalf the potential Investor is applying for the purchase of the Units and/or the source of funds. This will be used to comply with these regulations and to verify the identity of the Investors and will remain confidential. Each potential Investor will be required to provide satisfactory evidence of identity and if so required, the source of funds within a reasonable time period determined by the Fund. Pending the provision of such evidence, application for Units will be postponed. If a potential Investor fails to provide satisfactory evidence within the time specified, or if a potential Investor provides evidence but the Fund is not satisfied therewith, the application may be rejected immediately in which event the money received on application, if any, will be returned without interest payment.

The Investor may not need to provide documentation to the Fund Company if the Investor has an existing investment in the Fund and has already provided documentation or has already provided evidence of identity to the Fund Company. In the event of none of the foregoing applying to an Investor, the Investor may be required to provide proof of identity to the Fund Company as set out in the Subscription Agreement. Pooled funds or financial intermediaries will also be required to provide money-laundering regulations compliance declaration.

For the purpose of the Data Protection Legislation, the Investment Manager is the “controller” of any Personal Data that it receives in relation to any investor, potential investor, or their employees or agents (individually a “Data Subject”, together the “Data Subjects”). Indemnity

The Fund shall hold the Investment Manager and its directors free and harmless against any claim or liability that they may have incurred while performing their duties, except for their respective wilful misconduct or gross negligence.

Redemption

Each of Class A Units, Class B Units and Class C Units can be redeemed on a weekly basis on each Redemption Day, which means each Dealing Day falling after the expiry of the six-month period from the Closing Date, relevant to that class of Units by giving a notice to that effect to the Registrar two Business Days prior to the relevant Redemption Day.

Redemption Price

The redemption price for each class of Units will be equal to the NAV calculated for that class of Units by the Administrator on the relevant Dealing Day (see Section headed “*VII. Determination of Net Asset Value*”).

Redemption Request Form

A request for redemption must be made on the Redemption Request Form and once submitted to the Registrar or the Placement Agent, may not be withdrawn by the Unitholder except on suspension of redemptions, otherwise, the consent of the Fund Company is required for any withdrawal of a redemption request. A redemption request sent by fax or other means of communication will have to be accompanied by the duly filled Redemption Request Form sent by courier as soon as it is practicable.

Payment of Proceeds

Redemption proceeds will be paid in cash. Cash payments for Class A Units, Class B Units and Class C Units will be made in U.S. Dollars and will be remitted by way of cheques or by wire transfer upon request to the account (held with a licensed institution) designated by the Investor in the Redemption Request Form after deduction of all relevant expenses. Note that payments for outstanding Class B Units (i.e. Class B Units that were subscribed in Bahraini Dinars prior to the conversion into U.S. Dollars) will be made in Bahraini Dinars. No proceeds will be paid until the Registrar is in receipt of the original Redemption Request Form duly signed by the Investor or its designated authorized signatories. No third party payment will be made.

Any amount redeemed will be paid within five Business Days from the relevant Redemption Day.

Partial redemption resulting in an Investor to have an interest of less than the minimum subscription or minimum initial investment will be considered as a request for redeeming the Unitholder's entire holding unless the Fund Company otherwise determine in their sole discretion.

Liquidity Constraints on Redemption

If the Fund receives a net redemption request (redemption amount less subscription amount) from an Investor or Investors on a particular Redemption Day exceeding 5% of the Fund's NAV pertaining to Class A, Class B and Class C Units, the Fund Company will be entitled to redeem the redemption amount up to 5% of the NAV pertaining to Class A Units, Class B Units and Class C Units on a pro rata basis, or in such manner as the Fund Company may deem appropriate. Requests for redemption of Units, which cannot be met on any one Redemption Day, will be carried forward to the next Redemption Day, subject to the same provision.

Mandatory Redemption

In addition to the above, the Fund Company, acting at the recommendation of the Investment Manager, reserves the discretionary right to completely or partially redeem Units held by any Investor at any time for any reason. The Investor will be notified in writing of such redemption. Neither of the Fund, the Fund Company, the Investment Manager, or the Placement Agent will be in any way liable to any Investor by reason of such mandatory redemption.

The Fund may, in its absolute discretion, redeem all outstanding Units in the event of an exceptional decline in the value of the Fund's assets or a decline in the Fund's assets due to redemptions to a level insufficient to sustain normal trading by the Fund.

Suspension of Subscription and Redemption of Units

Subject to the compliance with the CBB regulations, the Fund may (but is not required to) temporarily suspend the determination of the NAV with respect to any Class A Units, Class B Units and Class C Units and subscription and redemption prices in respect of any Dealing Day upon the occurrence of one or more of the following events:

- (a) when the market or markets in which a substantial portion of the Fund's assets are invested or traded is or are closed otherwise than for ordinary holidays, or during which dealings therein are restricted or suspended in a way that affects the valuation of the Fund's assets or where trading is restricted or suspended in respect of securities forming a material part of the Fund's assets;
- (b) the existence of any state of affairs as a result of political, economic, military or monetary events or circumstances outside the control of the Fund Company, including but not limited to delay in settlements, and disposal of assets is not reasonably assured without materially affecting the value and interests of continuing Unitholders and calculation of a fair price;
- (c) any breakdown in the means of communication or computation or otherwise normally employed in determining the price or value of any of the investments made by the Fund for calculating the NAV with respect to each of Class A Units, Class Units B and Class C Units or valuing a significant portion of the investment of the Fund, or if the value of any asset or assets which is material to the calculation of NAV each of Class A Units, Class B Units and Class C Units may not be determined as accurately or rapidly as required;
- (d) imposition of foreign exchange restrictions or other restrictions affecting the transfer of funds and transactions on behalf of the Fund and potentially having a material impact on normal activities of

the Fund including but not limited to purchase and sale transactions and flow of funds from one country to the other; or

VII. DETERMINATION OF NET ASSET VALUE

The Administrator will determine the NAV of the Fund with respect to Class A, Class B and Class C Units in U.S. Dollars on a weekly basis at the close of business on Thursday or in the event Thursday is a public holiday in Bahrain, the prior Business Day will be used for valuation purposes. The NAV will be calculated using the methodology set out below and made available to the Investors before Monday at 6:00 p.m. Bahrain time. In addition, the Unitholders will be sent details of the NAV with respect to each of Class A Units, Class B Units and Class C Units and a brief report on the Fund's performance on a monthly basis.

The NAV per Unit for each of Class A Units, Class B Units and Class C Units will be calculated by the Administrator in accordance with generally accepted international accounting standards using the following formula: (a) the total assets of the Fund less the total liabilities divided by (b) the total number of outstanding Units of the Fund prior to such Dealing Day, and after the NAV per Unit for each of Class A Unit, Class B Unit and Class C is accrued of the Performance Fee (if any), the resultant NAV per Unit will be applied for subscription and redemption. The NAV per unit will be calculated in fractions up to two decimal places, with the third decimal being rounded up if it has a value of five or higher.

For the avoidance of doubt, the only difference in the valuation of NAV for Class A Units, Class B Units and Class C Units will be the amount of base management fee and performance fee payable by holders of Class A Units, Class B Units and Class C Units respectively. In the event that Units are redeemed, the Performance Fee in respect of such Units shall be calculated and become payable as at the date of such redemption. For the purposes of the determination of the Fund's NAV with respect to each of Class A Units, Class B Units and Class C Units, the assets of the Fund are separate from the assets of the Fund Company and from the assets of other collective investment schemes created or marketed by the Fund Company.

The updated NAV per Unit for each of Class A Units, Class B Units and Class C Units shall be communicated to clients on a weekly basis through email.

The Investment Manager / Sponsor cannot determine the value of the Fund's assets. However, the assets of the Fund will be valued based on directions from time to time of the Directors. Listed securities will be based on official close prices on the day as of which such valuation is to be made, directly sourced from the exchange or from recognized service providers such as *Reuters and/or Bloomberg*. In case the official close price is not available, last available official close price will be considered for the valuation. Normally, the value of a security for which a representative price is not readily available or is not regularly traded, will be based on the estimated realisable value.

All common income and expenses are proportionately allocated to Class A Units and Class B Units based on the assets under management for each class which is equivalent to opening gross assets plus any new subscriptions and crystallized performance fee on new redemptions minus any new redemptions and distributions for the period.

Liabilities will include, but are not limited to:

- (a) management and other fees and disbursements of the Investment Manager earned but not yet paid;
- (b) any allowance for the Fund's estimated legal and other fees;
- (c) charges of the Custodian, Administrator, Registrar, Auditor and any brokerage fees;

- (d) investments of the Fund contracted to be sold;
- (e) reserves authorised or approved by the Directors or the Investment Manager for duties and charges or taxes or contingencies (accrued where appropriate on a day-to-day basis);
- (f) other liabilities of the Fund of whatsoever nature (which will, where appropriate, be deemed to accrue from day-to-day) including outstanding payments on any Units previously redeemed and, as from the record date in respect thereof, any dividends declared and not paid (contingent liabilities (if any) being valued in such manner as the Directors may determine from time to time in any particular case;
- (g) all costs relating to any litigation in which the Fund or the Fund Company (acting in relation to the Fund) is involved; and
- (h) any amount borrowed for the Fund for reasons as explained in section headed “*IV. Investment Policy – General Restrictions*”.

The NAV with respect to each of Class A Units, Class B Units and Class C Units of the Fund and the Units will be expressed in U.S. Dollars. Any items denominated in other currencies will be translated at prevailing exchange rates as determined by the Administrator.
