HFCL profit up 21% sequentially in Q3

FE BUREAU

New Delhi, January 23

A STRONG INFLOW of orders and reduction in expenses helped HFCL to report a 20.5% quarter-on-quarter (q-o-q) increase in net profit to ₹102 crore in the October-December quarter. The company's revenue from operations, however, fell 7.5% q-o-q to ₹1,086 crore owing to fall in services revenue.

On a year-on-year basis, net profit rose 25.3%, whereas revenue from operations fell

10.7%. The company manufactures optic fibre cables and telecom equipment, and provides cloud-based network management systems.

"Over the last few quarters, despite supply chain disruptions... our strategy to tap into new geographies, new customers with new products and shift in revenue mix from projects to more of products... has resulted into sustainable revenue and margin expansion," said Mahendra Nahata, managing director of HFCL.
