[HFCL joins O-RAN Alliance to speed up open innovation in 5G](#)

New Delhi, Feb 21 (PTI) HFCL Limited on Monday announced it has joined the O-RAN Alliance, a global community of mobile network operators, vendors, research and academic institutions operating in the Radio Access Network (RAN) industry.

As an O-RAN Alliance member, HFCL would focus on contributing to standards that ensure a true open and multi-vendor RAN network, the company said in a statement.

HFCL has joined O-RAN Alliance to accelerate open innovation in 5G, it added.

O-RAN Alliance's mission is to re-shape the industry towards more intelligent, open, virtualised and fully interoperable mobile networks.

HFCL is investing in building a full portfolio of products for 5G Radio Access Network and 5G transport equipment.

"We are excited to be a part of the O-RAN Alliance and look forward to work with alliance members to realise the benefits of O-RAN," Mahendra Nahata, Managing Director of HFCL, said.

Open networking based on a well-defined architecture and pre-validated solution will enable operators to have increased supplier diversity, accelerate innovation, and reduce capex and opex, Nahata observed.

HFCL joins O-RAN Alliance to accelerate open innovation in 5G

February 21, 2022, 1:39 pm

Mumbai, Feb 21 (UNI) Telecom equipment manufacturer HFCL on Monday said it has joined the O-RAN Alliance, world-wide community of players mobile network operators, vendors, and research and academic institutions operating in the radio access network (RAN) industry, to accelerate open innovation in 5G. "As an O-RAN Alliance member, HFCL will focus on contributing to standards that ensure a true open and multi-vendor RAN network with emphasis on fronthaul, beamforming, near-real-time RAN Intelligent Controller (RIC), service management and orchestration (SMO), and end-to-end test specifications," the company said in a statement issued here. HFCL will also focus on integration and validation of its 5G Macro RU products and solutions at pluggable with other O-RAN Alliance members and contributors, it said. "Open networking based on a well-defined architecture and pre-validated solution will enable operators to have increased supplier diversity, accelerate innovation, reduce capex/opex and quick roll-out of 5G networks," HFCL Managing Director Mahendra Nahata said. HFCL is investing in building a complete portfolio of products for 5G RAN and 5G transport equipment that include 5G macro RU, indoor/outdoor small cell, cell site router and aggregation routers for fronthaul, mid-haul and backhaul, the company said. According to the company, O-RAN Alliance's mission is to re-shape the RAN industry towards more intelligent, open, virtualized and fully interoperable mobile networks. "O-RAN standards enable a more competitive and vibrant RAN supplier ecosystem with faster innovation to improve user experience. O-RAN based mobile networks at the same time improve the efficiency of RAN deployments as well as operations by the mobile operators," it said. UNI PSK/AC/3338

HFCL joins mobile network operators' community O-RAN ALLIANCE

Informist, Monday, Feb 21, 2022

MUMBAI - Following are key excerpts from an exchange filing by HFCL Ltd today:

The company has joined O-RAN ALLIANCE, a world-wide community of mobile network operators, vendors, and research and academic institutions operating in the radio access network industry

As an O-RAN ALLIANCE member, the company will focus on contributing to standards that ensure a true open and multi-vendor RAN network with emphasis on fronthaul, beamforming, near-real-time RAN intelligent controller, service management and orchestration, and end-to-end test specifications

The company will also focus on integration and validation of its 5G macro radio unit products and solutions at plugfests with other O-RAN ALLIANCE members and contributors

At 1415 IST, shares of HFCL were down 5.1% at 72 rupees on the National Stock Exchange. End IST, or Indian Standard Time, is five-and-a-half hours ahead of GMT

HFCL joins O-RAN ALLIANCE

KOLKATA, FEB 27/--/ HFCL Limited announced that the company has joined the O-RAN ALLIANCE, a world-wide community of mobile network operators, vendors, and research & academic institutions operating in the Radio Access Network (RAN) industry. O-RAN ALLIANCE's mission is to reshape the RAN industry

towards more intelligent, open, virtualized and fully interoperable mobile networks.

The O-RAN standards enable a more competitive and vibrant RAN supplier ecosystem with faster innovation to improve user experience. O-RAN based mobile networks at the same time improve the efficiency of RAN deployments as

well as operations by the mobile operators. HFCL is investing in building a complete portfolio of products for 5G Radio Access Network and 5G Transport equipment that include 8T8R/32T32R Macro RU, Indoor/Outdoor Small Cell, Cell Site Router and Aggregation Routers for fronthaul, midhaul and backhaul. HFCL joins O-RAN ALLIANCE to accelerate open innovation in 5G; Stock down 1.5%

As an O-RAN ALLIANCE member, HFCL will focus on contributing to standards that ensure a true open and multi-vendor RAN network with emphasis on fronthaul, beamforming, RIC, SMO, and end-to-end test specifications.

February 22, 2022 10:42 IST | India Infoline News Service

HFCL Limited (HFCL) announced on Monday that HFCL has joined the O-RAN ALLIANCE, a world-wide community of mobile network operators, vendors, and research & academic institutions operating in the Radio Access Network (RAN) industry. O-RAN ALLIANCE's mission is to re-shape the RAN industry towards more intelligent, open, virtualized, and fully interoperable mobile networks.

The O-RAN standards enable a more competitive and vibrant RAN supplier ecosystem with faster innovation to improve user experience. O-RAN-based mobile networks at the same time improve the efficiency of RAN deployments as well as operations by the mobile operators.

At around 10:45 am, HFCL Ltd was trading at Rs70.45 per piece down by Rs1.05 or 1.47% from its previous closing of Rs71.50 per piece on the BSE.

HFCL is investing in building a complete portfolio of products for 5G Radio Access Network and 5G Transport equipment that include 8T8R/32T32R Macro RU, Indoor/Outdoor Small Cell, Cell Site Router and Aggregation Routers for fronthaul, midhaul and backhaul.

As an O-RAN ALLIANCE member, HFCL will focus on contributing to standards that ensure a true open and multi-vendor RAN network with emphasis on fronthaul, beamforming, Near-Real-Time RAN Intelligent Controller (RIC), Service Management & Orchestration (SMO), and end-to-end test specifications. HFCL will also focus on integration and validation of its 5G Macro RU products and solutions at plugfests with other O-RAN ALLIANCE members and contributors.

"We are excited to be a part of the O-RAN ALLIANCE and look forward to work with alliance members to realize the benefits of O-RAN" said Mr. Mahendra Nahata, Managing Director at HFCL.

He further added "Open networking based on a well-defined architecture and pre-validated solution will enable operators to have increased supplier diversity, accelerate innovation, reduce CAPEX/OPEX, and quick roll-out of 5G networks."

HFCL's 5G Macro Radio Unit (RU) products are based on O-RAN 7.2 split option that provides an open fronthaul interface towards any O-RAN based third party Distributed Unit (DU). The Company is investing in a state-of-the-art 5G Lab at its R&D center in Bangalore for demonstration of various O-RAN use cases and deployment scenarios. The test beds leverage O-RAN architecture and AI/ML to enable network intelligence and closed loop automation through open and standardized interfaces in a multi-vendor network.

HFCL joins O-RAN Alliance to speed up open innovation in 5G

by PTI News | Feb 21, 2022 | 8:39 pm | News | 0 comments

New Delhi, Feb 21 (PTI) HFCL Limited on Monday announced it has joined the O-RAN Alliance, a global community of mobile network operators, vendors, research and academic institutions operating in the Radio Access Network (RAN) industry.

As an O-RAN Alliance member, HFCL would focus on contributing to standards that support an open and multi-vendor RAN network, the company said in a statement.

HFCL joins O-RAN Alliance to accelerate open innovation in 5G

February 2022 | Miscellaneous, News, Press Release

Himachal Futuristic Communications Limited (HFCL) has joined the O-RAN Alliance, a world-wide community of mobile network operators, vendors, and research and academic institutions operating in the radio access network (RAN) industry. O-RAN Alliance's mission is to re-shape the RAN industry towards more intelligent, open, virtualised and fully interoperable mobile networks. The O-RAN standards enable a more competitive and vibrant RAN supplier ecosystem with faster innovation to improve user experience. O-RAN based mobile networks at the same time improve the efficiency of RAN deployments as well as operations by the mobile operators.

HFCL is investing in building a complete portfolio of products for 5G RAN and 5G transport equipment that include 8T8R/32T32R macro RU, indoor/outdoor small cell, cell site router and aggregation routers for fronthaul, midhaul and backhaul.

As an O-RAN Alliance member, HFCL will focus on contributing to standards that ensure a true open and multi-vendor RAN network with emphasis on fronthaul, beamforming, near-real-time RAN intelligent controller (RIC), service management and orchestration (SMO), and end-to-end test specifications. HFCL will also focus on integration and validation of its 5G macro RU products and solutions at plugfests with other O-RAN Alliance members and contributors.

Commenting on the development, Mahendra Nahata, managing director, HFCL, said, "We are excited to be a part of the O-RAN Alliance and look forward to work with alliance members to realise the benefits of O-RAN. Open networking based on a well-defined architecture and pre-validated solution will enable operators to have increased supplier diversity, accelerate innovation, reduce CAPEX/OPEX, and quick roll-out of 5G networks."

HFCL's 5G macro radio unit (RU) products are based on O-RAN 7.2 split option that provides an open fronthaul interface towards any O-RAN based third party distributed unit (DU). The company is investing in a state of the art 5G lab at its research and development (R&D) centre in Bangalore for demonstration of various O-RAN use cases and deployment scenarios. The test beds leverage O-RAN architecture and artificial intelligence (AI)/machine learning (ML) to enable network intelligence and closed loop automation through open and standardised interfaces in a multi-vendor network.

HFCL joins O-RAN Alliance to facilitate 5G gear development

CIOReviewIndia Team | Monday, 21 February 2022, 12:06 IST

[Share](#) [Tweet](#) [Share](#)

Homegrown telecom gear maker HFCL Monday said it has joined the O-RAN Alliance to drive innovation in the fifth-generation technology ecosystem.

As an O-RAN Alliance member, HFCL will work on contributing to standards that make sure a "true open and multi-vendor RAN network" with an emphasis on fronthaul, beamforming, Near-Real-Time RAN Intelligent Controller (RIC), Service Management & Orchestration (SMO), and end-to-end test specifications, the New Delhi-based firm said in a statement.

The statement added that HFCL will also focus on integration and validation of its 5G Macro RU products and solutions at plugfests with other members and contributors of the industry alliance.

"We are excited to be a part of the O-RAN Alliance and look forward to work with alliance members to realize the benefits of O-RAN," said Mahendra Nahata, Managing Director at HFCL.
