Indian telecom equipment manufacturer HFCL (formerly Henschal Futuristic Communications Limited) has been recognised as the 'Trusted Source' by the National Security Council Secretariat (Trusted Telecom Cell), a part of the National Security Council, who advises the Prime Minister's Office on matters of national security and strategic interest.

With this approval, the company has become the 'Trusted Source' for all Indian telecom service providers (TSPs) for sourcing their telecom active network products and infrastructure.

Earlier, the government of India had launched the Trusted Telecom Portal in June under the cyber wing of the NSCS to bring enhanced supervision and effective control over nationwide telecom networks. The development of the portal has come following the government's efforts to ensure the security of telecom networks, especially with fifth-generation (5G) service on the anvil.

HFCL's Promoter & Managing Director, Mr. Mahendra Nahata said, "The development will lead to cement HFCL's position further in the Telecom sector thereby amplifying the growth opportunities for HFCL. Our inclusion in the select list as one of the trusted sources is a
