

Azuga Fleet Customer Success Story

Fox Systems Inc

Fox Systems, Inc. is a full-service electrical contracting firm specializing in the design and installation of systems for industrial automation, fire and security, lighting, and power distribution. Based in Calhoun, Georgia, the company boasts over 21 years of experience and ranked #3 in Azuga's Top Fleet Award 2016.

“Before installing the Azuga device in our business vehicles, I tried it out on my own. I really liked Azuga's maintenance, geofencing, reporting, and alerts!”

Tony Bauman, Owner, Fox Systems Inc

TOP FLEET
Q4'16

Challenges

- ▶ Reinforcing the company's commitment to safety.
- ▶ Eliminating unnecessary trips and maximizing on-the-clock time.
- ▶ Reducing aggressive driving behavior in company vehicles.

Solutions

- ▶ Employed Azuga's Email Alerts to help keep drivers accountable for safe and efficient driving practices.
- ▶ Management uses Azuga Status and Trip reports to observe company vehicle breadcrumbs and evaluate necessity.
- ▶ Utilized Azuga's Posted Speed Limit Alerts to monitor drivers' speeding behavior.

Results

- ▶ **Bolstered Safety Culture**
With the help of Azuga's safety alert technology, workers are engaged in a road-conscious mindset and an award-winning commitment to safe driving.
- ▶ **Increased Productivity**
Using Azuga's trip logging capabilities as a teaching tool, Fox Systems was able to curtail the number and duration of redundant trips to supply houses—leading to supply run efficiency and productive on-site time.
- ▶ **Reduced Speeding**
Proactively monitoring and increasing awareness of drivers' speeding practices has helped the team dramatically decrease unsafe driving speeds.

Driving data...

...Becomes a driver incentive

“Safety is a big deal at Fox Systems. Company-owned trucks with our name and number on them are mobile billboards and we want our workers thinking about safety wherever they go.”
