

### Single Sided

X926-7 (.10mm)  
(45 micron)

X928-7 (.24mm)  
(60 micron)

### Double Sided

X927-7 (.15mm)  
(45 micron)

X929-7 (.28mm)  
(50 micron)

Outside Diameter = 22.2mm (7/8 in.)  
Center Hole Diameter = 1.6mm (1/16 in.)

# Thin-Flex®

FLEXIBLE DIAMOND DISCS WITH TRUE EDGE CUTTING

Designed for carving ceramic and composite materials. Thin-Flex® discs are excellent for contouring and shaping all surfaces including embrasures. Thin-Flex® discs have diamond crystals wrapped around the edge of the disc to avoid “black marks” during carving procedures.

Thin-Flex® discs may be ordered individually or in twin-packs. Twin-packs include two discs and a mandrel. The heavy duty stainless steel HP lab mandrels feature an enlarged neck area for safer operation. The screw head and washer system guarantees true running and reduces metal fatigue.

| Single-Sided 1/PKG  | ORDER NUMBER |
|---------------------|--------------|
| 926-7 (0.10mm, 45µ) | CELBTFSG633  |
| 928-7 (0.24mm, 60µ) | CELBTFSG637  |

| Single-Sided 2/PKG (includes mandrel) | ORDER NUMBER |
|---------------------------------------|--------------|
| 926-7 (0.10mm, 45µ)                   | CELBTFTP634  |
| 928-7 (0.24mm, 60µ)                   | CELBTFTP638  |

| Double-Sided 1/PKG  | ORDER NUMBER |
|---------------------|--------------|
| 927-7 (0.15mm, 45µ) | CELBTFSG653  |
| 929-7 (0.28mm, 60µ) | CELBTFSG657  |

| Double-Sided 2/PKG (includes mandrel) | ORDER NUMBER |
|---------------------------------------|--------------|
| 927-7 (0.15mm, 45µ)                   | CELBTFTP654  |
| 929-7 (0.28mm, 60µ)                   | CELBTFTP658  |
