Panama

The leading offshore jurisdiction on the American continent.

The Panama Company is one of the most established offshore structures available, long valued for its strong confidentiality, asset protection, and affordability. As the leading offshore jurisdiction on the American continent, Panama combines investor-friendly legislation, full liability protection, and complete tax exemption on foreign income, making it a first-choice destination for international investors.

Panama operates a territorial tax system, so any income earned outside the country is free of local tax. It also offers some of the strictest corporate book and banking secrecy laws in the world.

+ № 02 · Delaware LLC

US Delaware

The most business-friendly US system: smooth, banked and accepted everywhere.

The Delaware LLC is one of the most popular and flexible US company structures available, widely regarded as having the most business-friendly legal system in the country. As a limited liability company, it's a legal entity entirely separate from the people who run it, giving you a US presence with advantages similar to offshore jurisdictions like the BVI, Seychelles, Belize, and Panama.

What sets a Delaware LLC apart is its Operating Agreement, drafted by the members themselves. This sets out the company's structure and governing rules, and can be amended over time. Unlike a corporation, the rules are flexible, so owners can organise and run the company entirely on their own terms.

KEY FEATURES

+ **Limited liability**
  Members aren't personally liable for the debts and obligations of the company.
+ **Strong asset protection**
  If a judgement is filed against a member, a creditor can't pursue the LLC or its assets.
+ **Single-member ownership**
  Only one member is required, of any nationality, with no need to reside in Delaware.
+ **Tax efficiency**
  Non-residents pay no Delaware personal income tax, no state sales tax, and no return where all business operates outside Delaware.
+ **No share capital**
  Members are appointed rather than issued shares, so there's no paid-up capital requirement.
+ **Minimal admin**
  No annual report or accounting required, just renewal of the registered office and agent plus a low franchise tax.

+ № 03 · Wyoming LLC

US Wyoming

The operational king of single-entity pass-through set-ups.

The Wyoming LLC is the most cost-effective onshore alternative to a traditional offshore company, combining genuine privacy, best-in-class asset protection, and a near-zero tax and compliance burden. Wyoming was the first US state to create the LLC back in 1977, and has built a deliberately business-friendly, low-cost reputation ever since, recently overtaking Delaware in new formations per capita.

As a limited liability company, it's a legal entity entirely separate from the people who run it, giving non-residents a credible US presence with the advantages of an offshore structure. Its Operating Agreement is drafted by the members themselves, flexible and amendable, and never filed with the state.

KEY FEATURES

+ **Strongest asset protection**
  Wyoming offers the strongest charging-order protection in the US, even for single-member LLCs. Creditors can't seize assets or force distributions.
+ **Limited liability**
  Members aren't personally liable for the company's debts and obligations.
+ **Privacy**
  Member and manager names never appear on the public record; your name appears nowhere on Wyoming's register.
+ **Tax efficiency**

+ **Single-member ownership**
  Only one member required, of any nationality, with no US residency requirement.
+ **Minimal admin**
  No annual accounts or audits, just a $60-minimum annual report and a registered agent.

The most common vehicle is the Private Limited Company, where each shareholder's liability is limited to the amount they've invested.
