LUNOKHOD: A pair of rovers sent to the Moon between 1969 and 1977 by the Soviet Union.

SOJOURNER: Sent to Mars by NASA in 1996.

SPIRIT: Sent to Mars by NASA in 2003.

OPPORTUNITY: Sent to Mars by NASA in 2003.

MINERVA: A series of rovers sent to asteroid 25143 Itokawa by The Japan Aerospace Exploration Agency between 2005 and 2019.

CURIOSITY: Sent to Mars by NASA in 2011.

YUTU: Sent to the Moon by The China National Space Administration in 2013.

MASCOT: Sent to asteroid Ryugu by the German space agency in 2018.

PERSEVERANCE: Sent to Mars by NASA in 2020.

INGENUITY: This helicopter was sent to Mars by NASA in 2020, attached to the underside of the Perseverance rover.

ZHURONG: Sent to Mars by The China National Space Administration in 2020.

PRAGYAN: Sent to the Moon by the Indian Space Research Organization in 2023.

SORA-Q: One of two rovers sent to the Moon aboard the Smart Lander for Investigating Moon (SLIM) by The Japan Aerospace Exploration Agency in 2023.

HOPPER: One of two rovers sent to the Moon aboard the Smart Lander for Investigating Moon (SLIM) by The Japan Aerospace Exploration Agency in 2023.

JINCHAN: Sent to the Moon by The China National Space Administration in 2024.
