## Season 5

**Special Forces: World's Toughest Test** is the ultimate test of physical strength, mental grit, and emotional resilience. In this intense reality series, celebrities trade their glamorous lives for grueling challenges modeled after actual Special Forces selection training. With no voting, eliminations, or special treatment, participants must survive extreme conditions, brutal tasks, and high-pressure missions — all while being pushed to their absolute limits by elite military instructors. Only the toughest will endure. There's no prize, just the chance to prove they have what it takes.
