

Training and Competency updates – April 2025

In partnership with NZTA, we designed individual webinars for the TTM sector to respond to the key questions, requests and themes from the webinars we hosted at the end of 2024.

Below are the Training and Competency related resources, which will help you to continue to learn and build your own knowledge of risk-based TTM.

- **You can view the webinars [here](#).**

What you need to know about your role and showing competency

The Credentials Framework Working Group have created a series of short, animated videos looking at what current training and competency requirements are needed for different jobs, and what this looks under the more risk-based approach.

- [Urban STMS](#)

TTM Credentials Framework Roadmap

A roadmap has been developed representing a high-level view of the estimated timeline of delivery for the TTM Credentials.
