

# CONNEX CLOUD

## SECURE COMMUNICATION AS-A-SERVICE

Connex Cloud offers a fully managed, end-to-end encrypted communication solution designed for organizations that prioritize privacy, compliance, and control. Delivered as a subscription-based service, Connex provides secure voice, video, messaging, via intuitive mobile and desktop apps, ensuring your teams stay connected without compromising sensitive data.

Connex combines military-grade encryption with enterprise-grade manageability, giving you the power of private communication without the complexity of infrastructure management.

### FEATURES

Dynamic  
Encryption

#### End-to-End Encryption

Protect all communications – calls, messages, and file transfers with industry-leading encryption that ensures only intended recipients can access your data.

User-  
friendly

#### Cross-Platform Communication

Stay connected with seamless, synchronized communication across iOS, Android, Windows, and macOS devices.

Cloud  
solution

#### Private Group Messaging & Calling

Enable secure collaboration with group chats, calls, and persistent team rooms, all encrypted and fully controlled.

#### Secure Phonebook

The content of the individual users' phone books is centrally managed and is not editable from within the Connex app.

#### Remote Management Portal

Gain visibility and control over your organization's secure communications with a centralized admin web portal.

#### GDPR-compliant and Hosted in EU

Your communication is secure, private and protected under strong EU legislation. (Hosted in Denmark)

#### Technical Support

Our expert support team is available via phone, email, and chat to resolve any technical issues or inquiries.
