Main performance indicators	GWP Growth: (7%)

	Net Loss Ratio: 52.31% Net Expense Ratio: 36.19% Combined Ratio: 88.50%
Expectations for the sector and the company's role in these expectations	There has been a steady decline in the average premiums over the last year in the motor segment and general insurance premiums are also under pressure on account of stiff competition. AWNIC is constantly improving its products and services to differentiate itself from the market
Expectations regarding the economy and its impact on the company and the sector	We are seeing encouraging signs on GDP growth and also in real estate & tourism sector further to the reopening of the economy. The increase in oil prices coupled with investment friendly regulatory changes in UAE is expected to act as a catalyst for further growth in the sector
Future plans for growth and changes in operations in future periods	AWNIC will continue to invest in digitization and automation to further its growth aspirations.
The size and impact of current and projected capital expenditures on the company	Net Capital expenses for the period was AED .46 Million
The developments of the implementation of projects, plans and transactions and deals that were discussed by the company's board of directors in the report for the previous fiscal year	The Board has noted the reduction in average premiums and has asked the management to devise action plans to sustain the growth strategy amidst the competitive market conditions
