Jacksonville, which is a consolidated city/county government within Duval County, has one of the lowest overall costs of living in Florida and the United States. Affordable, high-quality housing, ample recreational opportunities, and short commute times are just some of the reasons why so many people choose to relocate to Jacksonville each year. Duval has it all for business and lifestyle – Cecil Commerce Center, Jacksonville International Airport, JAXPORT, multiple military bases, increasingly vibrant downtown, sandy beaches, St. Johns River and upscale shopping.
