

What we're learning this term

We are writers...

We'll start with The Three Little Pigs, creating our own stories, traditional tales and simple instructions, then move to Red and the City to learn letter writing, and Wangari's Trees of Peace to inspire our own informative reports, building confidence with vocabulary, punctuation and creativity along the way.

We are readers...

Our guided reading texts are Little Red Riding Hood and Hansel and Gretel, with non-fiction reading about explorers linked to our geography topic. We have a weekly fluency lesson and a weekly non-fiction lesson.

We are mathematicians...

We'll build on number and place value, addition and subtraction, multiplication and division of 2, 5 and 10, and measurement including length and mass.

We are historians...

Our topic is Explorers. We'll discover famous British explorers and their achievements, and look at important events in Britain's history and how they've shaped the world today.

We are geographers...

Our topic is Our World. We'll explore the seven continents and five oceans through maps, stories and hands-on activities, discovering what makes each place unique.

We are scientists...

Our topic is Animals Including Humans. We'll explore what living things need to grow and survive, including exercise, a balanced diet and good hygiene, and how to look after our own bodies and care for others.

We are musicians...

We'll develop our singing through songs and musical games, learn simple rhythms and pitch patterns, sharpen our listening, and begin notation.

We are computer scientists...

We'll look at online safety: what happens to information posted online, keeping personal information private, and how permission is given or denied online.

We are artists and designers...

In art, we'll explore drawing materials, tonal shading and texture through observational drawing. Later in the term, we'll learn about levers and design tools to help keep our school clean.

We are linguists...

In Spanish, we'll learn numbers and telling the time, then in Autumn 2, likes and dislikes and different foods and drinks.

We are theologists...

We'll explore why people give thanks through offerings, and why light matters across different religious and worldview traditions.

PSHE

We'll learn how change and loss are part of life, the foods that fuel our bodies, how our bodies change as we get older, staying safe around medicines and chemicals, and how to help in an emergency.

PE days

Friday (coach) and Monday (class teacher).

Enrichment

A visit to Vauxhall City Farm linked to our science topic, and Brockwell Park gardens to explore plants up close.

Creative homework project

Choose one Black person, past or present, who inspires you with power, pride and strength. Create a poster, poem, story or fact file celebrating who they are and how they stood firm through challenges.
