WONDERMAPLE INC.

BUILDING AN INTERNATIONAL RECRUITMENT
SYSTEM WITH AI STRATEGIES

STRATEGY. SYSTEMS. ENROLMENTS.
Built for Education. Focused on Results.

WHO ARE WE?

Jenkin Tse,
Founder & Director of
WonderMaple Strategy

Welcome to WonderMaple Inc.

We don't just consult on student recruitment.
We've lived it.

With creative recruitment & digital strategies, WonderMaple Inc. has guided over **2,500 families through school applications**, earned recognition as a top regional recruiter for leading public institutions. We also built first-in-market AI EdTech tools named EduviXor that are reshaping how users navigate education decisions worldwide. That experience became our blueprint.

We put everything we know about digital growth, student recruitment and AI-powered systems to work for the schools around the world.

Currently we focus on new initiatives to tap into students in North America and LATAM who are interested in colleges in South Korea, Japan, Taiwan, China and other Asian countries. Please connect with us to get to know more about our strategies in 2027.

Smarter recruitment. Stronger systems. Real results.
