

2026 State Election Platform

Over **58,000** Victorian households are
waiting for social housing¹

More than 19,000 of them are **families with children**¹

That's why we need more community housing

This State election, we call on all parties to commit to:

Invest \$6 billion in the Social
Housing Growth Fund and
improve the Fund's settings

to give 20,000
families a
home.

At least 10% of new social housing to
be delivered by Aboriginal
Community Controlled Organisations

so that more Aboriginal
Victorians have a home
that meets their needs

Invest \$80 million/yr
to purchase
neighbouring sites

so up to 17,000 new
community homes
can be built.

Create a social housing
support program

to help renters stay
in their homes.

Fully retrofit all community
housing homes to be
energy efficient

so that all renters get
cheaper energy and more
comfortable homes

**Everyone deserves a safe, affordable
home so they can build a better life**
