

To Whom It May Concern:

This letter serves as a formal recommendation for **Mark Jemel Morales**, who worked as a **Webflow Developer** at Rivyl from Feb 5, 2025 to September 11, 2026. I served as his director during his tenure, and I had the opportunity to closely observe his exceptional skills, work ethic, and positive impact on our projects and in our team.

Mark is one of the most technically savvy Webflow developers I've ever worked with. From the initial interview, he demonstrated a deep knowledge and expertise of the system. Having assigned to him some of our most difficult projects, I can say with certainty that his mastery of Webflow together with his ability to execute designs accurately into working websites is proof that his skills translate well to the real world.

Mark has worked closely with teams of differing areas of expertise: UX/UI designers, copy and strategy, and e-commerce specialists. This has enabled him to be even more well-rounded in terms of his main skill as a developer.

It was also during Mark's tenure that we got the *Best Agency Website* award at the *Australian Web Awards 2026*. We also passed and were made a *Webflow Certified Partner* shortly after that. Although these were team efforts, Mark's skills were integral in allowing us to reach these two milestones. I am very proud of our time working together.

I wholeheartedly recommend Mark and am confident that he will excel in any Webflow development role he takes on. He would be a tremendous asset to any team, and I'm happy to speak further about his qualifications if needed. Feel free to reach me at hans@rivyl.com if you have any questions.

Sincerely,

Hans Cerdania

Director of Web Development
