

Quick Start Guide

Phi Series Phi 3
5G Protection

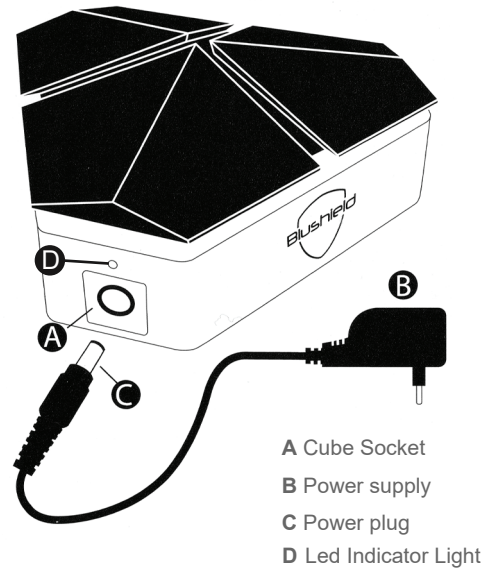

Phi 3

Phi Series | 5G Protection

Compatibility

AIRPLANE SAFE
MOBILE SAFE
5G SAFE
Wi-Fi SAFE
AUTOMOBILE SAFE

Getting Started

Using the included power supply, select a suitable place to plug in the Phi 3. Preferably plug the Phi 3 in a central area within your home or office. Only use the included power supply as other third party power supplies may be the wrong voltage or polarity, potentially damaging the beyond repair. Using incorrect power supplies will void the warranty.

Once the power plug is inserted you will observe the LED indicator light up white.

If you fail to see a small white light at the hole make sure the power supply is turned on at the wall, and check that the power plug is firmly in the socket. Do not force the plug.

Important Instructions

- DO NOT place the in damp areas or bathrooms as there may be a risk of electric shock
- DO NOT use force to insert the power plug into the socket
- DO NOT attempt to modify or open the case, this will void warranty and you may risk electric shock
- DO NOT try to charge the unit as it does not contain any battery
- DO NOT place the Phi 3 on an unstable surface

Place out of reach of young children, keep the power cord tucked away to avoid children pulling on it or household pets from chewing on the wire. There is a risk of electric shock if the cord is broken.

Phi Series Φ3

Phi Series | 5G Protection

What the Phi 3 Does Not Do

- Phi 3 DOES NOT interfere with wireless devices
- Phi 3 DOES NOT block any mobile phone or Wi-Fi signals
- Phi 3 DOES NOT interfere with pacemaker use
- Phi 3 DOES NOT cause electronic devices to stop working
- Phi 3 does not remove EMF nor does it modify EMF. Using an EMF meter will not indicate any change in the environment.
- After you install the Φ3 the numbers on any EMF meter will not alter, as their sole purpose is to measure electro-magnetic fields.

Adjustment Period

Some people report that within the initial first few days after installing the Phi 3, they feel low in energy or tired. This is a harmless transient condition and will pass. This is the body adapting to a new environment. Persist with this until it passes. Older persons who have poor health may take longer to adapt, this is a normal process as the body adapts to a new environment.

Warranty

The Phi 3 is strictly for interior use only. It carries a warranty for a period of one year. This covers factory defects or faults. The warranty does not cover misuse, modification, neglect (water damage) or opening of the case. The warranty does not cover wear and tear on the power plug cord.

If a claim is made all postage costs are to be covered by the customer. A Blushield distributor will decide whether to repair or replace the product depending upon the fault.

CAUTION RISK OF ELECTRIC SHOCK: For interior use only. Do not use in damp or humid areas.
