> DESIGNER-DEVELOPER

15+ YEARS BUILDING DIGITAL <STUFF>

5+ YEARS MANAGING REPEAT CLIENTS

20+ PROJECTS SHIPPED (SITES & CODE)

PROFILE

Self-taught developer with roots in the physical trades – I think in systems, debug methodically, and build things that survive real-world use. Webflow + JS specialist with deep experience in no-code architecture, API integrations, and Cloudflare serverless infrastructure.

EXPERIENCE

FREELANCE WEB DEVELOPER
SELF EMPLOYED (GERMANY)

2021-Present

- Designing, building, and maintaining client websites on Webflow & Cloudflare with custom code/integrations
- No-code / low-code automation with Zapier, Make, and connected app workflows
- Long term client relationships with ongoing rebuilds, feature additions and responsive support

IRRIGATION TECH

2019-2026

USA 2006-2019 / GERMANY 2019-2026

- Advanced irrigation system and water feature design, installation, service & repair
- Leading projects and teams of up to 5 as well as training new team members
- Fleet and equipment maintenance from regular service to rebuilding small engines

FEATURED PROJECTS

CELL2SITE

cell2site.com

Open-source JS library turning Google Sheets into a headless CMS for Webflow. Drives content rendering, filterable map layers, accordion tabs, and dropdown filters – no backend required. Versioned on GitHub with Webflow Clonables.

THE HERITAGE ATLAS

theheritageatlas.com

Interactive UNESCO World Heritage Sites map powered by Cell2Site. Google Sheets drives location data via custom Leaflet map with filtering and CMS-driven detail pages.

BIRD REBELS

birdrebels.art

Full brand build: 50+ original hand-drawn emblems, Webflow CMS with cross-linked collections, Shopify with custom theme and international markets, Printify +Printful PoD, and a custom HTML-to-PNG poster export tool.

QUALITY IRRIGATION

qualityirrigationli.com

5-year client relationship with ongoing maintenance, updates and yearly hosting.
