

# COMPACT, RELIABLE HIGH QUALITY DESKTOP SCANNER

A productivity-driving desktop scanner with an on-board DR chip, delivering fast image processing, impressive scanning speeds and steadfast paper handling – improving efficiency in busy offices and thin-client workgroups.

## Benefits

- Compact and user friendly, with large five-line LCD operation panel and job button scanning
- Versatile feeding of various documents including passports
- Enhanced productivity, with DR chip delivering high-speed scanning and 120-ipm image processing
- Versatile and reliable 90-sheet ADF
- CaptureOnTouch, Capture Perfect and Kofax VRS software included
- Save IT and operational costs with DR Scanner Management Tool & supporting driver-less environment

## GENERAL PRODUCT INFORMATION

|                      |                                                                                    |
|----------------------|------------------------------------------------------------------------------------|
| Type                 | Desktop Type Sheet Fed Scanner                                                     |
| Scanning sensor unit | CMOS CIS 1 Line Sensor                                                             |
| Optical resolution   | 600dpi                                                                             |
| Light source         | RGB LED                                                                            |
| Scanning side        | Simplex / Duplex / Skip blank page / Folio                                         |
| Interface            | USB3.1 Gen1                                                                        |
| Dimensions (WxDxH)   | 285 mm x 180 mm x 178 mm                                                           |
| Weight               | Approx.3.6 kg                                                                      |
| Power requirements   | AC 100-240V (50/60Hz)                                                              |
| Power consumption    | Scanning: 23W or less<br>Sleep mode:1.4W or less<br>Power turned off: 0.1W or less |

## SCANNING SPECIFICATIONS

|                            |                                                                                                                                                             |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Black and White            | 60ppm / 120ipm                                                                                                                                              |
| Colour                     | 60ppm / 120ipm                                                                                                                                              |
| Output resolution          | 150 x 150dpi, 200 x 200dpi, 240 x 240dpi, 300 x 300dpi,<br>400 x 400dpi, 600 x 600dpi                                                                       |
| Output mode                | Active Threshold, Black & White/Error Diffusion/ Advanced<br>Text Enhancement, Advanced Text, Enhancement II, 8-bit<br>Greyscale (256-Level), 24-bit Colour |
| Suggested Daily Duty Cycle | Approx. 7500 scans                                                                                                                                          |

## DOCUMENT SPECIFICATIONS

|                        |                                                    |
|------------------------|----------------------------------------------------|
| Width                  | 50 - 216 mm                                        |
| Length                 | 54 - 356 mm                                        |
| Thickness              | 27 - 413g/m <sup>2</sup> (0.04 - 0.49mm)           |
| Long document mode     | 5588 mm Max                                        |
| Business card scanning | Size: 50 mm x 91 mm<br>Thickness: 0.45 mm or less  |
| Postcard scanning      | Size: 89 mm x 152 mm<br>Thickness: 0.45 mm or less |
| Plastic card scanning  | Size: 54 mm x 86 mm<br>Thickness: 1.4 mm or less   |
| Passport scanning      | Up to 6 mm thick (via carrier sheet)               |
| Paper separation       | Retard Roller Method                               |
| Feeder capacity        | 90-sheets (80g/m <sup>2</sup> )                    |

## SPECIAL FEATURES

New DR Processor giving High Speed/quality image processing, Five line LCD Operation panel, Automatic Page Size Detection, Full Auto Mode, Deskew, 3-Dimensional Colour Correction, Colour Dropout (RGB), Colour Enhancement (RGB), Character Emphasis, Text Orientation Recognition, Auto Colour Detection, Shadow Cropping, Adjustable gamma settings, Skip Blank Page, Folio Mode, MultiStream™ support, Batch Separation with blank page, patchcode, barcode, counter or zonal OCR, Moiré Reduction, Prevent Bleed Through/Remove Background, B&W Contrast, Background Smoothing, Auto Resolution Setting, Ultrasonic Double Feed Detection, Double Feed Release, Separation Retry, Barcode / 2D code recognition

## BUNDLED SOFTWARE

|         |                                                                                                               |

Visit the Canon website for more information.

A4 Flatbed Scanner Unit 102

A3 Flatbed Scanner Unit 202

## A4 & A3 FLATBED SCANNER

Scan bound books, journals and fragile media by adding the A4 Flatbed Scanner Unit 102 or the A3 Flatbed Scanner Unit 202. Connected by USB, these flatbed scanners work seamlessly together with the Canon ADF scanners.

## NA10 / WA10

A simple way to expand your office's scanning capability Network adapters that enable users to share access to Canon's imageFormula scanners across multiple computers. Delivers enhanced mobile scanning options and works seamlessly with a choice between a wired or wireless connection.

## Software Developer Kit (SDK)

Software developer kits and tools are available through the Canon Developer Programme To register for the programme:

- Please visit the registration page - <https://developers.canon-europe.com/developers/s/login/SelfRegister>
- If you experience any issues signing up please contact CDP admin at [cdp-admin@canon-europe.com](mailto:cdp-admin@canon-europe.com)

## DR Management Tool

Flexible central management tool available to support your business and user environments. The DR Scanner Management Tool is an efficient method to simultaneously monitor and distribute settings for large number of scanners in organization. This is available to download from our Canon web page.
