PRODUCT BROCHURE

ODORANT DELIVERY TRUCK

PURPOSE-BUILT FOR MERCAPTAN SERVICE

CAPACITY

200 to 2,600 US gal

CHASSIS

Customer-selected

VAPOR CONTROL

Closed-loop recovery

PURPOSE-BUILT FOR MERCAPTAN SERVICE.

MRR engineers each odorant delivery truck around mercaptan compatibility, vapor containment, vehicle loading, and the requirements of the operating jurisdiction. Capacities from 200 to 2,600 US gallons can be configured on the customer's selected chassis. Closed-loop vapor recovery and carbon filtration are integrated into the transfer system.

APPLICATIONS

Gas utility fleets, odorant resupply and distribution, and dedicated mercaptan transfer operations.

DESIGNED AROUND THE WORK

ENGINEERED FOR THE VEHICLE

Payload, gross vehicle weight, and axle loading are checked before the design is approved.

BUILT FOR MERCAPTAN

Wetted components, seals, gaskets, and fittings are selected for odorant compatibility.

SUPPORTED THROUGH HANDOVER

Engineering records, commissioning documentation, training, parts, and field support are available.
