

MERCAPTAN SPILL KIT

READY BEFORE A SPILL. EQUIPPED FOR THE RESPONSE.

The MRR Mercaptan Spill Kit packages the containment, absorption, neutralization, recovery, PPE, and cleanup tools required for an initial response to a mercaptan release. The SK-085 equips two technicians and is designed for spills up to one gallon, with all components protected inside an outdoor-rated 85-gallon overpack.

APPLICATIONS

Emergency readiness at odorization stations and odorant storage, delivery, transfer, commissioning, and temporary-work sites.

PHYSICAL DATA

PART NUMBER	SK-085
APPROX. WEIGHT	170 lb
OVERPACK CAPACITY	85 US gal
DIMENSIONS	30 in diameter x 45 in high
SPILL CAPACITY	Designed for spills up to 1 US gal
OUTDOOR STORAGE	Rated to -20 °C
SURFACE SUITABILITY	Soil, gravel, sand, and concrete
