# Your Psychedelic Guide: Omolewa

Our guide, Omolewa, is known in Jamaica as the Entheogenic Midwife. She describes her sacred and ancient work as “assisting individuals through rebirth and resurrection.”

## Background

Omolewa has been a massage therapist for 20+ years and began her work with psychedelics 13 years ago. Through her holistic work as a doula, midwife, and psilocybin facilitator, she focuses on trauma, healing, and self-exploration.

## Medicinal doses

Over your 7-day stay, Omolewa will administer 3 doses of psilocybin, tapered to your experience and goals for the week. Dosages are no more than 3.5 grams and are administered as dehydrated, whole mushrooms.

## Medical staff

A registered nurse will provide your initial intake on day one and will remain on site all week.
