WHAT IS DIRECT PRIMARY CARE?

*QUALITY, ACCESSIBLE AND
AFFORDABLE HEALTH CARE AT
YOUR FINGERTIPS.*

What is DPC?

Direct primary care (DPC) is simply a payment model where patients pay the physicians directly. By removing insurance billing, we remove a layer of expense from your healthcare. This allows your doctor to care for you personally without interference. DPC focuses on the relationship between the patient and the physician.

What if I have insurance? Can I still be a member?

Absolutely, while we do not bill your insurance for our services, there are times using insurance may be appropriate. DPC also works well for people or families who do not have health insurance or who choose a health sharing program.

Why does it work?

DPC is about focusing our attention, time, and effort on caring for our patients - directly, without oversight from non-medical administrators, using evidence-based guidelines individualized for the circumstances of each patient.

Why DPC?

DPC benefits patients by providing substantial savings and a greater degree of access to, and time with, physicians. DPC allows family physicians to care for the whole person while reducing the overhead and negative incentives associated with fee-for-service, third-party-payer billing.

WHAT WE OFFER

AND HOW DOES IT WORK?

- Building your benefits package with direct primary care and your high deductible HSA plan (or similar), will often save money over traditional employer sponsored health plans.
- If your business does not currently offer benefits, by offering the DPC membership to your employees, you offer basic peace of mind. It's a great recruitment and retention benefit.
- We are a full-service family medicine practice offering chronic care and follow up. You can have the assurance that your employees will be well taken care of for a small out of pocket expense for you as their employer.
- We also offer urgent visits. If your employee has a minor injury, burn or cut that might need stitches--call us first to potentially avoid a more costly urgent care or ER visit.(Obvious emergencies should always go to the ER).
- We offer urine drug screens for pre-employment screens, physicals and more.Dr. Allen is also DOT certified!

PRACTICE PRICING

NFFM

ENROLLMENT FEE \$75

This is a one time fee applied to an employees welcome visit.

ADULTS 19-45 YEARS \$60/MONTH

ADULTS 46-99 YEARS \$80/MONTH

Employees also have the opportunity to add dependants at a reduced rate for accessible health care for their entire family.

Note that with 20 or more employees we offer quarterly site visits for the convenience of your team!

CHILDREN 0-18 YEARS \$20/MONTH

This applies to children of parents who are not members. For children with parents that are members, the monthly fee is reduced to \$15/month.
