Imuderm®

Emollient

for the management of

- eczema
- psoriasis
- dry skin conditions

skincomfort

REF **IMU500EM**

SLS* & SLES FREE**

500g e

Imuderm® is a 2 in 1 emollient and soap substitute, which can be used to treat dry skin conditions such as atopic eczema, psoriasis or dermatitis. **Imuderm®** emollient is easily absorbed and works to prevent skin from becoming dry, rough and scaly. **Imuderm®** hydrates the skin and prevents moisture loss by providing a barrier on the skin helping to lock moisture in. **Imuderm®** emollient can be used immediately after washing to help counteract the loss of essential oils and moisture from the skin, or as a soap substitute to ensure moisture is not lost during the washing process. The emollient is intended to be used on unbroken skin daily or as required. **Imuderm®** emollient is suitable for all ages, including infants.

INGREDIENTS

Aqua; Paraffinum Liquidum BP; Urea BP (5%); Glycerine BP (5%); Cetearyl Alcohol; Ceteareth-20; Glyceryl Stearate; Cetrimonium Bromide BP; Tocopheryl Acetate; Benzyl Alcohol; Phenoxyethanol; Lactic Acid; Potassium Sorbate; Xanthan Gum.

DIRECTIONS FOR USE

- Press pump head repeatedly until cream is dispensed
- Apply to affected areas, smoothing gently into the skin, following the direction of the hair growth. Use as often as required or as directed by your pharmacist or doctor
- To use as a soap substitute, apply as required when washing

If you experience a skin reaction or any undesirable effects stop using **Imuderm®** emollient and discuss with your doctor.

Do not use **Imuderm®** emollient if you are sensitive to any of the ingredients.

PRECAUTIONS

- **For external use only**
- **Avoid contact with the eyes**
- **Do not use the product after the expiry date shown on the label**

*SLS is an abbreviation of Sodium Lauryl Sulphate. **SLES is an abbreviation of Sodium Lauryl Ether Sulphate.
