Suite #1020, 5555 Calgary Trail NW.,
Clark Builders Place Edmonton, AB T6H 5P9

Assess patient for treatment of Primary Snoring

Assess patient for treatment of Obstructive Sleep Apnea

Patient has not been able to tolerate CPAP

Patient prefers to use Oral Appliance Therapy (OAT)

Patient requests oral appliance for occasional wear in addition to CPAP

Patient needs CPAP and oral appliance

Other:

Note: If available, please send sleep study including data pages with referral.

Dentists can play an important role in your chain of care. We will perform a thorough evaluation and consultation with the patient on the benefits and limitations of oral appliance therapy.

The patient will be referred back to you for follow-up evaluation if they elect oral appliance therapy, or you will be contacted if they decline or are if they are not a suitable candidate.
