Why it works for a pizzeria or quick-service counter

Sizes and toppings, read for you.

Small, medium, large: the photo import reads sizes and prices.

A combo on the wall.

Your best seller plus a drink, on its own slide.

Out of something? It's off the board.

Mark it sold out on your phone.

“We put the JAM screen right above our Coca-Cola coolers. It draws customers' eyes to the drinks and really helps move product. People see the branding and the cold drinks right there together.”
