NO MORE PRICE STICKERS

Change a price once.
Every board follows.

Send us a photo of your menu. We build your TV boards, QR menu and print menus.

Change a price from your phone

Your TV boards and QR menu update instantly. No stickers. No white-out. Need paper? Print a fresh copy.

Out of wings? One tap.

86 it on your phone. Your boards and QR menu show it sold out, so guests don't order what you're out of.

In Stock | Sold Out

Custom boards. No design work.

As sharp as the big chains, and still yours. Big menus spread across two or three TVs, readable from the line.

Synchronizes with your POS system

Change prices and 86s in your POS as usual. Your boards and QR menu follow on their own.

Square | Toast | Oracle | Clover | + More

Breakfast at 7. Lunch at 11.

Your boards switch menus and specials by day and time, on their own. Pick a dish and we make the special.

Breakfast 7–11 | Lunch 11–3 | Dinner 5–10

Paper + QR + Digital signage, kept in sync

One menu feeds them all: boards for the line, QR for phones, print for anyone who asks.

Any TV with HDMI
a small JAM Player plugs into each one

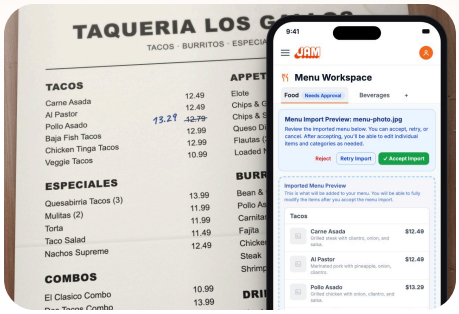

Plays if Wi-Fi drops
changes catch up when it's back

your team can run the app in either

HOW IT WORKS

Snap it. We build it. You stay in control.

1

Snap a photo of your menu

Or send a PDF. We read your items, sizes and prices, and you check them before anything goes live.

2

Pick your favorite design

We build up to four designs from your menu. Pick one. Change anything, any time.

3

Run it from your phone

Change a price or tap Sold Out. Your boards and QR menu update instantly.

> "You all should add a Google link or survey button so I can leave you guys a 5 star review for all the work you have done and the great customer support!"
>
> **Darren, owner** · Grab N Go Tacos

> "I see customers come down the steps and scan the QR code... so they know what they want before they even get to the counter"
>
> **Owner** · Thistle Cafe · Austin, TX

> "The menu board is looking great, I love it."
>
> **Mike DeCarlo**
> Culinary Director
> Leo's Deli · Rochester, NY

Questions owners ask

Is this too hard for me and my staff?

No. We call you, set it up and train you. If you can take a photo, you can run it. The app is in English and Spanish.

Do I have to change my POS?

No. Keep using Square, Toast, Oracle or Clover. Your boards follow, and JAM never changes your POS.

Do my printed menus update, too?

The print-ready PDF does: print it in the shop or at your print shop. Paper already printed needs a reprint.

Do I need new TVs?

No. Any HDMI TV works with a small JAM Player. No TVs? We can deliver them and arrange installation.

Got more than one location?

Run them all from one dashboard. Change a price once for every store, or let each store keep its own prices.

Will my guests like it?

Guests read the QR menu in their language, with allergy info you add. Orders stay at your counter.

Get started before your next menu change
