

We're Hiring

Business Analyst & Product Owner

Bitventure is a leading provider of verification, authentication, and data-driven solutions across South Africa. Our technology empowers businesses to onboard customers securely, prevent fraud, and scale confidently.

We are looking for a Business Analyst & Product Owner to bridge business needs and technical delivery while owning and driving the end-to-end product lifecycle. This role plays a critical part in shaping product strategy, improving business processes, and ensuring value-driven delivery aligned with customer and commercial goals.

What You'll Drive

- Elicit, analyse, and document business and product requirements aligned to company objectives
- Translate complex business needs into clear functional, non-functional, and technical requirements
- Own and manage the product backlog, ensuring readiness for sprint planning and delivery
- Define initiatives, outcomes, and success metrics aligned with strategic goals
- Collaborate closely with development teams to validate technical feasibility and solution design
- Actively participate in Agile ceremonies (sprint planning, refinement, reviews, retrospectives)
- Conduct business impact assessments, tracking value, risks, and delivery outcomes
- Drive continuous product and process optimisation through data-driven insights

What We're Looking For

- 5+ years' experience in a Business Analyst or Product Owner role
- Proven experience working with financial, investment, or fintech systems (advantageous)
- Strong understanding of the Product Development Life Cycle (PDLC)
- Hands-on experience in Agile (Scrum/Kanban) environments
- Excellent stakeholder engagement and communication skills
- Strong analytical mindset with the ability to quantify impact and value
- Ability to balance business, technical, and commercial priorities Requirements gathering, documentation, and solution design
- Business analysis tools such as Jira, Confluence, Azure DevOps
- Data analysis and business insight generation
- SQL and relational database fundamentals
