

We're Hiring

Senior Software Developer

Bitventure is a leading provider of verification, authentication, and data-driven solutions across South Africa. Our technology empowers businesses to onboard customers securely, prevent fraud, and scale confidently.

We're looking for a **Senior Software Developer** to join our Product & Engineering team. This role will take a leadership position in designing, developing, and maintaining scalable software solutions that power Bitventure's growing ecosystem. You'll collaborate with cross-functional teams, mentor developers, drive technical excellence, and contribute to innovative solutions within the fintech field.

What You'll Drive

- Lead the design, development, testing, and delivery of high-quality software solutions
- Develop clean, efficient, secure, and scalable code
- Contribute to software architecture decisions and technology selection
- Lead code reviews and champion development best practices
- Mentor and support junior and intermediate developers
- Collaborate with QA teams to ensure software reliability, security, and performance
- Troubleshoot and resolve complex technical issues
- Maintain and enhance existing applications and platforms
- Drive continuous improvement, innovation, and technical excellence
- Participate in technical planning,

What We're Looking For

- Bachelor's Degree in Computer Science, Engineering, or a related field
- 8–10 years' experience in software development
- Strong experience with C#, .NET, .NET Core, SQL Server, Angular, Flutter, Node.js, JavaScript, and Web APIs
- Experience working with cloud environments such as Azure and AWS
- Understanding of software architecture, design patterns, and scalable systems
- Experience with Docker, containerisation, and Kubernetes environments (AKS/EKS advantageous)
- Strong knowledge of SDLC, Agile, and Scrum methodologies
- Experience with testing frameworks, quality assurance, and performance optimisation
- Familiarity with Git, Bitbucket, SVN, or TFS practices
